I made this quilt for
my dad's 95th
birthday that was
this Easter Sunday.
He worked on the
rocket that landed
on the moon.

Made as a sample for classes at Blazing Star, it was done in fabrics to make it a gift for a niece or nephew's first child.

While I was in Atlanta, I gifted a number of quilts to family. This one I made years ago as a sample with my nephew in mind. His baby is due in June! It is a wall hanging but large!

hanging in
her log
cabin in the
North
Georgia
woods.

This embroidery pattern was designed by Lola Newman of Stitch'n by the River. She developed patterns from original photos or drawing at the Library of Congress. We had a class at Joyce's home and it was fun to join with everyone. Turned mine into a wall hanging.

Quilted by Joyce Wilkinson, Embroidery, borders and finishing by Patti Voyles Valencia, California 2022

Originally this quilt was made with the COVID nurses in mind but there was so much work involved in the making process I held on to it. My nephew announced he's getting married this June and I decided to give it to him. The embroidery is Assissi embroidery done on my machine. The quilting was done on my longarm.

My son-in-law was the director of photography for this Rob Zombie film. He asked me to make this quilt for Rob. When the Long Beach was having their show 2 years ago and wanted movie quilts I decided to submit it then. That show was cancelled due to COVID so I sent the quilt to Rob. The Long Beach show opened up submissions for movie quilts this year and so I sent in this picture. It was accepted to the show so hopefully you will get a chance to see it there.
