

Fold over
and tuck in

Second
Point
finished !!

Snug up

View of thick
and thin edges
– remember
always start on
thick side as
you will turn
over to tuck on
thin side.

Steps for each point

Remember
when
folding you
want this V
shape

Remembering the V shape helps
when unsure of the direction you should fold

Continue around remaining pieces

Once all point
are completed
you should
have all the
extra pieces of
fabric on one
side ready to
be trimmed or
tucked under.

To finish up at home,
iron and if desired:

- Add spot of fabric glue to secure tucked ends.
- Sew on a loop to hang.
