

## Capability Statement

**Company Overview:** Established in 2014, **Privateer IT, LLC** is a Service-Disabled Veteran-Owned small business that provides cutting-edge solutions to federal clients. Our primary focus is software development, project management, infrastructure support, consulting, and IT analysis. Under the leadership of CEO Jerry Bennett, a US Navy Submarine veteran, who established our guiding motto, "**Do what you say you're gonna do!**" We pride ourselves on our integrity and unwavering commitment to delivering innovative and transformative solutions. Our expertise spans cloud migrations, software development, data integration, and infrastructure support, all tailored to meet each client's unique needs.

### Certifications and Contract Vehicles.

### Core Competencies:

- **Software Development:** Tailored development and support for custom solutions that meet client-specific requirements.
- **Cloud Services & Migration:** Expertise in cloud migration, environment management, and optimization, including support for major platforms such as AWS, Azure, and Datapipe.
- **Project Management:** Providing leadership in managing complex projects, programs, and portfolios, focusing on minimizing risk and ensuring high-quality results.
- **Infrastructure Support:** Full support for IT infrastructures, from design to implementation and ongoing maintenance.
- **Data & Application Migration:** Ensuring seamless transitions of data and applications, including cloud-based migrations and multi-platform integrations.

### Differentiators:

- **Service-disabled veteran-owned small Business:** We bring a strong commitment to excellence, accountability, and discipline, as reflected in our veteran leadership and team culture.
- **Tailored Solutions:** Our ability to understand and adapt to the unique needs of our clients, delivering solutions that minimize risk and maximize efficiency.
- **Agile & Human-Centered Design:** We incorporate agile methodologies and human-centered design principles to ensure user-focused and adaptable outcomes.
- **Comprehensive Experience:** A proven track record of successful projects across multiple federal agencies, including the Department of Veterans Affairs, Department of Defense, and more.
