

# Private Events

—————LIVE & WORK FULLER—————

Because equines are sentient beings, they provide humans a non-threatening mirror of our own emotional state. That state is often the source of our biggest challenges in life & work.

The equine becomes a catalyst, and metaphor, during our clients experience, teaching irreplaceable lessons about boundaries, communication, fairness, trust & respect.

## WOMEN'S WELLNESS RETREATS

Learn how to find balance, connection, & to align with inner purpose. Our retreat mission is centered on restoring & rebalancing ourselves.

Develop tools that facilitate lasting change within ourselves; which subsequently impact our relationships & work.

## EQUINE THERAPY

### How We Work

A glimpse of what we offer:

- 1 Private Ranch, nestled by National Forest.
- 2 Equine Assisted Activities + Ranch Work
- 3 Private Chef + Cooking
- 4 Breath work, Ice Bath, Massage
- 5 Hike, Kayak, Yoga... & down time.

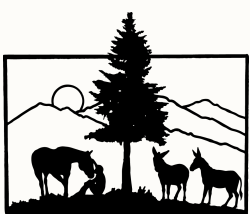

## Corporate Events

Our founder, Kris Getzie, along with Chairman of the Board, Rob Lynch, have decades of corporate retail experience (Rob as a CEO; public & private).

This collective wisdom (of both business & horses) allows your team a transformational experience, unlike anywhere, as they develop leadership skills like:

communication | boundaries | fairness | trust.
