

# CORPORATE RESPONSIBILITY STATEMENT

## **1 Professional Integrity & Ethical Conduct**

As a CIAT Registered Practice, we commit to upholding the highest standards of professionalism, honesty, and integrity, in line with the CIAT Code of Conduct. We ensure that all work is undertaken with due skill, care, and diligence, maintaining transparency with clients, collaborators, and stakeholders. We actively avoid conflicts of interest and promote fair, ethical practice across all project activities.

## **2 Competence, CPD & Technical Excellence**

We maintain and continually develop our professional competence through ongoing Continuing Professional Development (CPD), ensuring that our knowledge of building science, regulations, technology, and design practice remains current and aligned with CIAT's professional standards.

## **3 Responsible Design & Building Safety**

We are committed to delivering safe, robust, and technically sound design solutions that prioritise the health, safety, and welfare of building users and the wider public. Our work is grounded in building science and performance, ensuring that buildings are durable, efficient, and compliant with all statutory requirements. We support the principles of the Building Safety Act and promote a culture of responsibility throughout the design and construction process.

## **4 Environmental Responsibility & Sustainable Practice**

We recognise our responsibility to minimise environmental impact through sustainable design, material selection, and energy-efficient solutions. We aim to reduce carbon emissions, promote circular economy principles, and support clients in achieving high environmental performance standards.

## **5 Social Value & Community Impact**

We strive to ensure that architectural technology contributes positively to communities by designing inclusive, accessible, and socially responsible environments. We consider the long-term social impact of design decisions.

## **6 Collaboration, Transparency & Accountability**

We work collaboratively with clients, consultants, contractors, and regulatory bodies, ensuring clear communication and transparent decision-making. We take responsibility for our professional actions and maintain accurate records to support accountability throughout the project lifecycle.

## **7 Diversity, Inclusion & Fair Practice**

We promote equality, diversity and inclusion treating all individuals with respect and fairness, fostering an environment free from discrimination.

## **8 Commitment to Quality & Continuous Improvement**

We are dedicated in delivering high-quality outcomes through rigorous design with robust management systems in place. We adopt best-practice methodologies to enhance building performance, user experience and long-term value.
