

To whom it may concern.

My Name is Sandria Gaines,

I am the founder of Heavenly Hands kitchen outreach and food pantry in Stockton California. Our organization feeds around 10,000 meals a year and distributes toys during Christmas. We serve a impoverished community that is primarily made of minorities.

Travis Castle has volunteered with our charity for about 4 years now. Travis has been heavily involved with us. He has helped distribute food, clothing and dresses up as Santa every year and hands out toys to needed children. He has been available on sort notice and has conducted food drives using his business to add to our capabilities.

The Path to Humanity will be a ground breaking system. I and other charities are very excited to join the project and help in anyway possible. I have seen this project get better and better over the years and I can't wait to see it in action. This program is exactly what the people need. Nonprofits like ours are very dependent on grants and donations. It would be wonderful to have the freedom to work with a city or county with this project so we can gain the ability to pool our talents together and make real change

Heavenly Hands kitchen outreach and food pantry fully supports The Path to Humanity and we are looking forward to seeing this dream come true.
