May

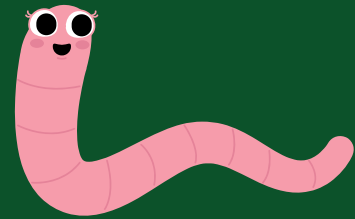

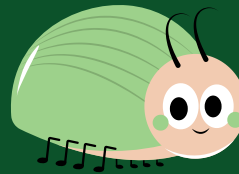

what to know

This month's theme is "Curious Crawlers" We will be continuing our explorations of the world around us by discovering more about the tiny critters that contribute to our overall ecosystem.

We will continue to support gross motor development rolling and crawling like bugs. We will support language development by singing songs, like the Itsy Bitsy Spider, and reading books like The Very Hungry Caterpillar, and we will support social emotional development through intentional interactions that make sure your child feels seen and loved no matter how small! Remember it is never too early to start reading with your child!

kindergarten news

May

what to know

April's highlights feature our field trip to Sandy Creek Nature Center where we discovered new information about habitats, rocks and minerals, and farming. A couple of students found a beetle larvae and built a habitat for it which served as a great introduction to our May monthly theme "Curious Crawlers"! We also enjoyed "tasting" our favorite books and sharing what we love about reading! And lastly- we have been exploring the earth by making landforms with kinetic sand and beads.

**Please make sure to provide your child with a weather appropriate change of clothes and water bottle daily!

This month will be full of important dates. Please make sure to mark your calendars and join us as we celebrate and wrap up our amazing school year!

Teacher Appreciation Week - May 6th-10th
Field Day - May 14th 930AM-2PM
OLS End of Year Program - May 17th 930-11AM

what we are learning

This month we will be learning about curious crawlers and exploring one of our favorite things- worms and all things wiggly! In reading we will be exploring fiction and nonfiction stories and reading words with blends and digraphs. In math we will be revisiting geometry.

first grade news

May

what to know

The month of April was filled with so many fun adventures! We loved getting to learn more about the Easter story and showcase the Lord's love for us by participating and leading the Easter Walk for all of LTA's families! Also, we loved getting out in nature to explore the beginning of Spring and what that looks like around the LTA campus. Students showed incredible problem solving skills and communication skills while working together to learn more about the change in the season. We cannot wait to finish the school year strong with a fun filled May!

what we are learning

Phonics: We will be learning about compound words and working on how to divide syllables.
Math: We are doing a whole year review on all of the math skills learned this school year.
Writing: We are working on writing informational writing about a topic of choice. Students are getting to research about their topic in order to write and teach about it!
PBL: Curious Crawlers - We will be learning about some creepy crawlers, as well as, going over historical figures in American history.

second grade news

May

what to know

Wow, I can't believe we're already at the end of the year! I am thankful for being entrusted to teach your child this year and thankful for the many blessings this school year has brought! Each student has grown so much and I am incredibly proud of each and every one of them. We will continue working hard and learning each day, please make sure your students are well rested and ready to learn each day!

what we are learning

In the month of May we will work on measuring in inches and feet. Students will become professionals when it comes to measuring things and comparing measurements. We will also work on reading a clock, reading time on the hour, quarter past, half past and quarter til. During our phonics students will work to review many of the things we have learned throughout the year such as short and long vowels, consonant clusters and words with double consonants. Folk Tales, Fairy Tales and Fables will be our reading focus. Students will be able to identify and compare genres as well as find the central message, moral or lesson in the books we read.

third grade news

May

what to know

During April we had lots of fun collecting and observing many different rocks and minerals. We identified many different types of rocks and learned how they are formed as we studied the Rock Cycle.

This month, we will continue our exploration of environment by looking at the "Curious Crawlers" that exist around us and how they contribute to our ecosystem. Our native plant species garden project we are working on will be a perfect place for us to explore these critters in the years to come!

what we are learning

This month we are reviewing many of our academic standards and realizing ways they all come together to support our academic preparedness for the upcoming year. We are hard at work planting our pollinator garden and building the pergola and benches in it. We are learning through research and observation about the many different pollinators we see, and expect to see, as our pollinator plants grow and produce flowers that provide essential nectar and pollen for them.

fourth grade news

May

what we are learning

Math- We are finishing up our Fractions Model and focusing on how to multiply fractions by a whole number. We will continue working with fractions in word problems by adding/subtracting, comparing and renaming fractions. To wrap up our final module, we will focus on relating fractions to decimals up to the hundredths place. We will also continue to review/revisit previously learned math skills.

Reading/Language- This month we will complete our novel study on the book Hoot by Carl Hiassen. We will continue story mapping with literary texts and also focus on developing the main idea and supporting details of informational texts.

Writing- This month we will focus on poetry writing! Students will learn how to write a variety of poems and review figurative language.

PBL- This month we will focus on Creepy Crawlers! We will also revisit Science and Social Standards topics previously taught this year.

Teacher Appreciation Week - May 6th-10th

Field Day - May 14th 930AM-2PM

OLS End of Year Program - May 17th 930-11AM

Last month, the students got to take a field trip to the Greenville Zoo! This field trip was sparked from an opinion writing the students completed several months ago. Students wrote their opinion about zoos and this led to class debate. Half of the students believed zoos were harmful and the other half believed zoos were helpful. This field trip brought this writing to life and students were able to see first-hand how zoos care for animals in a safe, loving way. Students also learned that not all zoos are accredited and unfortunately mistreat their animals but this problem is trying to be solved. What a great experience for our students...make learning authentic and real!
