

Collage Workshop
March 30, 2020

Things to bring:

Your desired collage pattern. These are available at most quilt shops or you may order one from fiberworks-heine.com. Or any other collage designer. You can also watch a short video on the Fiberworks website.

Your pattern traced on the Pattern Ease before workshop. Let me know if you need some. I have about 8 yards left

Pattern instructions, please read all pattern instructions to see that you have everything needed.

Fabric with Motifs, fat 1/8's and fat 1/4's are great, per pattern requirements. We can also swap motifs with each other.

Steam A Seam 2, amount per requirements on your pattern (no substitutions)

Teflon Sheet or applique pressing sheet

Iron

Ironing surface

Scissors, a pair that will cut fabric, but not your best scissors. Your scissors will get gummed up from the Steam a Seam 2.

Small trash can or bag for all the scraps that will be trimmed away

Rag or cloth to wipe away gumminess from the Steam A Seam from your Teflon Sheet

Some patterns may require your background fabrics be sewn together before motifs are applied. Be sure to read your pattern to see if that will be necessary.

We do not need sewing machines.

Lunch and drinks

Please do not hesitate to call if you have any questions: Cathy Tullos 936-933-1113
