

Modular Lubrication
Customer Specific Grease System

Genuine Optimized Lubricant Delivery

System can be configured precisely to client specification. All components are modular, robust, proven, and allow for complete adjustability.

GOLD has grease lubrication packages which:

1. Conform to client specification / need
2. Low dose high frequency for consistent lubrication
3. Easily monitored and refilled by user
4. Reduces over / under lubrication conditions
5. Reduces lubricant consumption
6. Reduces operational costs

Solution Summary:

Part No.	GSSMGLSXXN4x
Availability	4-5 Weeks
Typical Install Time	5 Hours
Number of Lube Points	2-36 Bearings
Lubrication Intervals	PLC Controlled (Programmed by Client)
Recommended Lubes	Lithium / Calcium Based
Power Requirements	24 VDC / 100-240 VAC
Air Requirements	60 psi @ 1 CFM
Recommended Maintenance	Solenoid Inspect timer periodically

System includes: Logic control cabinet with pumps (2-36), customer specified I/O module(s), solenoid valves, tubing and fittings, lubricant reservoir with low-level indication.
