

KITS is a San Francisco-based band that plays all original songs. Our sound is a mix of indie soul and power-pop, with groove-based songs that balance lyrical meaning with strong melodies.

We've all played with multiple SF Bay Area bands and have experience performing in many settings: private parties, company events, street festivals, and many small- and mid-sized venues around the Bay and Peninsula.

We'd love to play at your venue! We're happy to be booked in advance -- or please consider us if you have unexpected cancellations. We are well-connected with other musicians and capable of bringing more than one band to a billing.
