

We Fix the System. Not Just the Projects.

SIPOC Industries helps organizations restore predictable execution by diagnosing and correcting breakdowns across the entire delivery system.

SiCycle, the SIPOC Industries Delivery Lifecycle

FROM DIAGNOSIS TO CONTINUOUS IMPROVEMENT

1 - System Diagnostic (SiPulse)

2-4 WEEKS*

Assess your delivery system using SiPulse™, the SIPOC Industries Diagnostic Model – evaluating people, process, governance, technology, and metrics to identify what’s working, what’s not, and why. A one-time starting point before entering the continuous improvement cycle below.

Deliverable: System Diagnostic Assessment

5 - Improvement Plan Adjustment

1 MONTH*

Adjust priorities, refine initiatives, and update the roadmap based on measured results and evolving business needs.

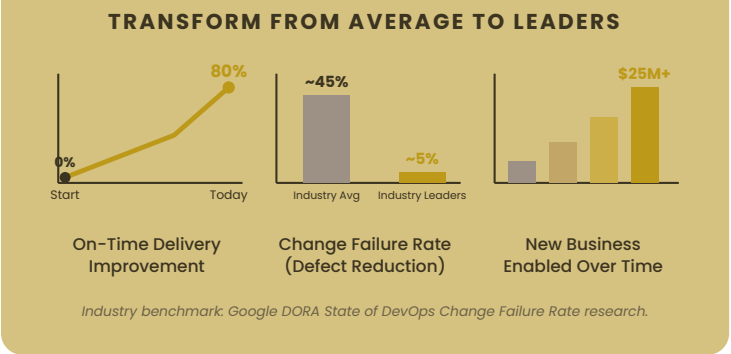

Deliverable: Continuous Improvement Roadmap

4 - System Diagnostic Reassessment (SiPulse)

2-4 WEEKS*

Run SiPulse™ again to measure progress, quantify improvements, and identify remaining constraints.

Deliverable: System Diagnostic Reassessment

2 - System Stabilization Plan

2-3 MONTHS*

Translate diagnostic insights into a practical action plan that addresses root causes, aligns stakeholders, and defines the path to a stabilized system.

Deliverable: System Stabilization Action Plan

3 - Stabilization Implementation & Mentoring

3 MONTHS*

Help your teams execute the plan, build better habits, strengthen governance, and embed new operating practices.

Deliverable: Stabilized Delivery System

Continuous Improvement Partnership

6 ONGOING

Partner long-term to continually strengthen your delivery system and drive ongoing performance improvement. This isn’t a step in the loop – it’s the relationship that surrounds it.

Deliverable: Ongoing Improvement & Maturity Advancement

*Timeframes are estimates only.

The Results You Can Expect

Clear Visibility into System Health and Performance

Predictable Delivery and Improved Outcomes

Aligned Leadership and Accountable Execution

A Culture of Continuous Improvement
