

THANK YOU

20 Years and Still Going

Black Diamond Foundation September 2023 Update

Hurricane Idalia

While Citrus County escaped the 120 mph winds that hit 80 miles northwest of Black Diamond, the low lying areas west of highway 19 in Crystal River and Homosassa saw considerable damage as thousands of homes and businesses were impacted by the seven foot storm surge. Citrus County has been declared a disaster area by the federal government.

Local Charities Respond to Hurricane

Black Diamond Foundation supported charities in Citrus County were proactive in assisting residents in need: including the Family Resource Center, Daystar Life Center and the Community Food Bank. [See article from the Chronicle.](#)

Black Diamond

Black Diamond Ranch was lucky with minimal damage within the gates. Maintenance crews and residents have been cleaning up the fallen branches that covered our streets and lawns. There does not appear to be any significant damage to the golf courses or the Ranch renovation project.

Foundation Activity

The Foundation came out of our summer hibernation to provide an emergency grant of \$10,000 to Daystar Life Center to cover a new freezer and HVAC system (prior to Idalia).

We hope everybody is having a good summer and we look forward to seeing our snow birds this fall.
