

About PreownedPoint

PreownedPoint focuses on the best opportunity within your database of customers both from an automated program stance as well as the ability to grab and send from the on demand engine within the Preowned Point platform.

We take the ALG Residuals from JDPower Chrome and tie them together with the rates from Drivrz Financial to create the industry's 1st Automated Used Vehicle Leasing Lifecycle Marketing Solution.

This solution now affords the dealer the ability to send out affordable and competitive offers to prospects while allowing them to shop all the Used Car Lease Payments on the Customer's Garage Portal with their Equity Applied. in one view. We record every vehicle they review and report it in the Dealer Portal
