**Chemical Restraint:** a drug or medication used to control a student's behavior or restrict freedom of movement that is not (A) prescribed by a licensed physician, or other qualified health professional acting under the scope of the professional's authority under State law, for the standard treatment of a student's medical or psychiatric condition; and (B) administered as prescribed by the licensed physician or other qualified health professional acting under the scope of the professional's authority under State law.

**De-escalation techniques:** are strategically employed verbal and non-verbal interventions used to reduce the intensity of threatening, violent, and disruptive behavior before a crisis occurs.

**Functional Behavior Assessment (FBA):** is a collaborative problem-solving process used to describe the function or purpose that is served by a student's behavior. Understanding the function that an impeding behavior serves for the student assists directly in designing educational programs and developing behavior plans with a high likelihood of success.

**Mechanical Restraint:** (A) any method of restricting a student's freedom of movement, physical activity, or normal use of the student's body, using an appliance or device manufactured for this purpose; and (B) does not mean devices used by trained school personnel, or used by a student, for the specific and approved therapeutic or safety purposes for which such devices were designed and, if applicable, prescribed, including: (1) restraints for medical immobilization; (2) adaptive devices or mechanical supports used to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports; or (3) vehicle safety restraints when used as intended during the transport of a student in a moving vehicle.

**Positive Behavior Interventions and Supports Leadership Team:** the team at the School that plans, coaches and monitors implementation on PBIS. The team may include the a School administrator, teacher representatives across grade levels, and staff able to provide behavioral expertise, and other representatives identified by the district or school such as bus drivers, food service staff, custodial staff, and paraprofessionals.

In a timeout, the student is not physically restrained or prevented from leaving the area by physical barriers.

### **Creation of Positive Behavioral Intervention and Supports**

The School shall establish an evidence-based school wide system of positive behavioral interventions and supports that will apply in all settings to all students and staff. The system shall include family involvement. The School's PBIS framework includes all of the following:

- B. Data-based decision making to select, monitor, and evaluate outcomes, practices, and systems;

- C. Evidence-based practices along a multi-tiered continuum of supports;
- D. Systems that enable accurate and sustainable implementation of practices; and
- E. Progress monitoring for fidelity and target outcomes.

The School's implementation of its PBIS framework includes:

  - i. involves the use of pinning down a student by placing knees to the student's torso, head, or neck;
  - ii. uses pressure point, pain compliance, or joint manipulation techniques; or
  - iii. otherwise involves techniques that are used to unnecessarily cause pain.
- C. Corporal punishment;

- I. Seclusion of students in a locked room or area; or
- J. Any physical restraint that obstructs the student's airway or impacts the student's primary mode of communication.

Staff must:

- A. Be appropriately trained to protect the care, welfare, dignity, and safety of the student;
- B. Continually observe the student in restraint and/or seclusions for indications of physical or mental distress and seek immediate medical assistance if there is a concern;
- C. Use verbal and on-verbal communication strategies and research based de-escalation techniques in an effort to help the student regain control;

### **Restraint**

Restraint may be used only in a manner that is age and developmentally appropriate, when there is an immediate risk of physical harm to the student or to others and no other safe and effective intervention is possible. Physical restraint must be performed by trained staff, except in the case of an unavoidable emergency situation.

Physical restraint may not be used for punishment, discipline, or as a substitute for other less restrictive means of assisting a student in regaining control, and should be used only as a last resort.

### **Seclusion**

Seclusion may be used as a last resort for the student to regain control; it is age and developmentally appropriate; there is an immediate risk of physical harm to the student or others; and there is no other safe and effective intervention available.

Seclusion shall not be: used for punishment or discipline; as a substitute for an education program; as a substitute for inadequate staffing, or for staff training in PBIS frameworks and crisis management; for the convenience of staff; as a means to coerce or retaliate; in a manner that endangers the student; or, as a substitute for other less restrictive means of assisting the student in regaining control reflective of the cognitive, social, and emotional levels of the student.

The room or area used for seclusion cannot be locked, and must allow for the student to exit the area should the staff become incapacitated or leave the area. The room or area must also provide for adequate space, lighting, ventilation, and the ability to observe the student. The student must be under constant supervision by staff trained to detect indications of physical or mental distress that require removal and/or immediate medical assistance and who document their observations of the student.

### **Multiple Incidents and Functional Behavioral Assessment**

For students eligible for special education per the Individuals with Disabilities Education Act (“IDEA”) or who have a Section 504 Plan, the Scholl shall convene the IEP team or Section 504 team within ten (10) school days after the third incident of seclusion or physical restraining in a school year. The IEP team or Section 504 team will consider the need to conduct a functional behavioral assessment (“FBA”). If necessary, this FBA should be followed by a behavioral intervention plan (“BIP”), or an amendment to an existing BIP, that incorporates appropriate positive behavioral interventions.

### **Training and Professional Development**
