Summer Teams 2024-25

Week 8

Congratulations to our voucher winner this week – **Ky Bloomfield**. Ky is one of our younger players and had a wonderful score of 25.

Towards the top of the ladder **Bogeytins** have overtaken **GG's2** after returning an amazing score of 109, one of the best scores this season. Some excellent scores this week gave the handicappers some work to do, and some shuffling of places on the ladder. Remember to encourage the players in your team to play each week, they will need to be in the habit to put their best foot forward during finals season 😊

Players are reminded they only need to play once between the 23rd December and the 19th January (week 11). Any golfers that are lucky enough to be heading away over the holiday period can play their teams in advance, so avoiding the dreaded score of 40.
