Summer Teams 2024-25

Week 10

Congratulations to our voucher winner this week – **David Coddington**, David scored a very impressive 21, clearly he is coming home with the wind in his sails towards the tail end of the season. Scores were not quite as good this week, with a player on 29 (countback) winning a ball.

A reminder to all players: **Week 11 runs from the 23rd December until the 19th January – players only need to play once during this period.** Week 12 commences on the 20th January. **A reminder players can play their games in advance if they wish- just mark the appropriate week on your card.**

Finals will be coming around very quickly once the New Year rounds begin, so encourage your team members to be in the habit of playing **every week**, so avoiding the dreaded score of 40 and giving your team the best chance to have a crack at the fabulous prizes the committee has organised for our presentation day.

The committee would like to wish all players and their families a very happy Christmas and festive season. We will look forward to seeing you all back on the course in 2025
