SUBJECT: GilbertiBlueGold - Free Alkaline Bottled Spring Water to All Soldiers, Wounded Warriors, Veterans, and Cancer Families with Healthiest Water Quality Readings on the Planet Located in Sarasota Florida

- *300-mile Blue Gold Pipeline from Sarasota to Miami with High-Speed Rail, New Casinos, Hotels with Alkaline Homes*
- *Over \$2 Trillion a year in GDP added to Florida, Availability to Knock Down All \$40 trillion of US Debt within 6 Months with New Medicine and Global Bottling*
- *Upgrade of National Defense to Florida Peninsula from Tampa Ports to Miami Ports Per Title 50 USC Section 3*

RE: Request For President Donald Trump, First Lady Melaina Trump, Congress, Barack Obama, George Bush, Bill Clinton, and Joe Biden to come together as one to Visit and Test the World Resource, a Secret Underground River Giving Access to Global Oceans Worth More than any other Country.

Dear President Donald Trump, First Lady Melaina Trump, Pete Hegseth, Mike Johnson, and Congress

My name is Joseph D. Gilberti Jr. I am a native to Florida and have been a Professional Engineer for 30 years and graduated from the University of Florida. I have two sons who are Engineers from Florida Gulf Coast University who live in Fort Myers Beach, Florida. We were hired to do a mining permit back in 2006 at the Cecil Daughtrey Ranch located at 9438 Daughtrey Road, Sarasota Florida 34266, where we found a unique underground river that ends about 2000 ft below the land. Since then, we have implemented a state-wide national program to bring alkaline spring water to the tap, lower water

bills, and to convert an unnecessary reservoir into a power plant and/or potential AI Data Center in Arcadia, Florida.

Free Bottled Water for All Soldiers, Wounded Warriors, and Veterans

We are offering free bottled water that is the healthiest bottled water that has ever been seen on the planet. We need your help for exposure and to get this to The Pentagon and the national media who seems to be hiding this for some period of time and potentially selling it off to foreign nations that are surrounding us such as, Canada through Stantec Engineering (Canadian Owned), and Mosaic Fertilizer (Israel Owned) through Greenberg Traurig Law who we fired on this property for such reasons. Florida Power and Light (FPL), our major power company, is owned by NextEra Energy, which is European who is also involved in potentially hiding this resource.

Please see the Table 1 below that is showing our raw water Quality readings straight from the ground compared to the best alkaline premium bottled water on the planet. Nothing compares. It is a crack in the Earth tied to deep underground oceans pursuant to our reconnaissance by Federally known oil well driller Jim Murray from Aquifer Maintenance and Performance Systems (AMPS) from Palm Beach County at 7146 Haverhill Road N., West Palm Beach, FL 33407. Jim Murray has drilled oil for over 50 years and over 3 quarters of the Earth and said he has never seen water even close, hence the attack on my civil rights by Sarasota County judges, Tampa judges, all the way through the state and across the country with multiple democrats and many republicans that I believe you need to speak to regarding the ethics of trapping an engineer and trying to sell this resource to a foreign country.

Please see Exhibit 1 for water readings, Permit letter, and PowerPoint presentation that has been presented to commissioners in Sarasota County, City of Northport, City of Cape Coral, City of Naples, City of Fort Myers, Village of Estero, School Boards, all the way to Palm Beach, Dade and Broward Counties.

This world resource has water readings 100 times healthier than any bottled water on Earth, see readings and comparison table for alkaline spring water showing high calcium and magnesium rates with zero contaminants with endless and high-capacity flow that shows it is much healthier than Fiji Water. See table 1 below.

Table 1. Raw Alkaline Water Quality of GilbertiBlueGold Compared with Processed/Filtered/Treated Bottled Water Brands

Quality	GilbertiBlueGold	Fiji Water	Mountain Valley Spring Water	Icelandic Glacial	Acqua Panna	Evian	Voss
Calcium (mg/L)	118.2	18.	70.	5.5	34.	81.	6.5
Magnesium (mg/L)	71.9	14.	7.2	2.2	6.9	26.	1.
pH	7.49	7.91	7.8	8.49	7.7	7.95	7.1
Contaminants (yes or no)	NO	YES	YES	YES	YES	YES	YES

High Speed Rail and 300-Mile Antioxidant Spring Water Pipeline to Convert Treated Water to Pure Alkaline Spring Water for Preventive Healthcare and Economic Drivers

We also have permits for the Peace River Manasota Regional Water Supply Authority that is currently pulling off the most polluted river in the state called Peace River in DeSoto County. To finish what we call loop option and inject our spring water to replace the treated water as tap water treatment is based on cancer and disease rates, and they are pulling off a very polluted river. This one 9-mile pipe alone can feed four counties instantly and is ready for construction. We also have a continuation of bringing the pipeline down old CSX Right away in West Florida that is basically non-used. We can take it through eminent domain as the water is a public need and put new tracks and a high-speed rail with hopefully Brightline Railway from Tampa to South Florida down I-75 as they propose a ten-lane widening. Three new tracks can be used, one for supply chains, and two for High-Speed Rails. This would also supply bottled water to the Navy Ports from Tampa, Manatee, to South Florida Miami ports and Broward Port Everglades to upgrade the Florida Peninsula for healthcare at the tap and national defense pursuant to Title 50 USC Section 3. Please see *Gilberti v Council of National Defense et al* Mandamus, where we described these particular upgrades. Please see exhibit 1 for our overall map as this resource can keep two 9-ft diameter pipes full as well as the 6-ft diameter pipe that is proposed in the Peace River area and then some. This resource is a crack in the Earth from what we call the Yucatan Meteor Impact or the KT Event, See Gilberti KT Hypothesis in exhibit 1. Please see our PowerPoint presentation presented to various municipalities including City of Miami and Broward County. See links for our YouTube videos on our website at www.GilbertiBlueGold.com.

Tourism, Hotels, and Casinos with Increase in GDP

We are proposing a new SeaWorld with more hotels and attractions, expansion at FGCU with a football stadium, a monorail system with docking from the high-speed rail to Fort Myers Beach for a new Lovers Key Casino. We met with Seminole Gulf Tribe Casino in 2013 about bottling and potentially a new casino with Chief Sanchez. We could put a big heart instead of a guitar, clubs, and a baseball stadium at Lovers Key with more hotels to promote more primary water access. See exhibit 1 for 5–10-year program and cost breakdown for new pipeline, casinos, SeaWorld, tourism, FGCU expansion, Manatee Port expansion, billions of alkaline spring water homes, hospitals, schools, businesses, a high speed rail from Tampa to Miami/Broward with Brightline Railway or equal; and most importantly new medicine and knowledge to find more across Earth in days to end hunger, diseases, and reasons for wars. We have found another access point that is a buried volcano at New Jersey Watchung Mountain that can service New Jersey and New York City Endless antioxidant spring water as well. We have already met with Mayor Eric Adams. The Alignment study can be found in exhibit 2.

We have found two economic drivers, one for New York City to replace the aqueducts, and one for Florida to replace very poorly treated polluted rivers with spring water that is better than any bottled water on the planet.

Conclusion

We want to get this bottled water immediately to the soldiers; the bottled water would be at cost free for all soldiers, wounded warriors, and veterans. We can charge the price of Fiji water for the world and maybe bring in Walt Disney so the whole world can taste it and pay off the national debt in days. This water also affects global medicine, batteries for electric cars, computer parts/needs, agriculture, new foods, National Defense, cooling systems for AI Data Centers as this water is tied to a global ocean that is bigger than the Northern Continent showing that there is plenty of water for everyone.

We are offering FREE BOTTLED PRIMARY WATER or “GilbertiBlueGold” to all soldiers, veterans, and wounded warriors and perpetuity if you preside this resource in the next 30-60 days. We also ask that you bring Obama, Clinton, Bush, and Biden to bring all presidents, democrats, and republicans together for this world resource as we are all Americans.

We have been working on this for 13 years and there is hundreds of witnesses, for some reason Sarasota County’s government is trying to hide this from America with both democrats and republicans across the state that you know very well and so do the past presidents. Maybe it is blocked from you guys

or maybe it is not, nevertheless nobody is moving this underground river, and we need to expose it immediately. We look forward to seeing you all at the site as soon as possible

LANDTECH DESIGN GROUP, INC.

Sincerely,

Joseph Gilberti, PE (Engineer of Record)
