HOW TO ACCESS

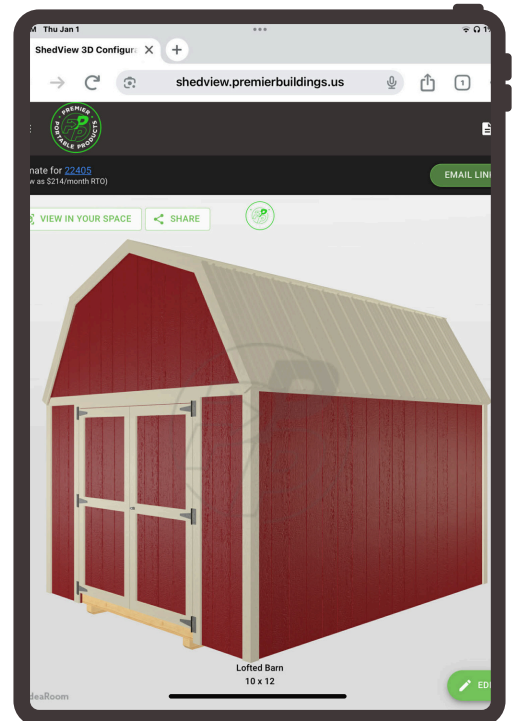

Use any web browser to access the Shed View tool with this web page: <https://shedview.premierbuildings.us/>

*If you've been assigned a dealer specific web page, please use that web address instead (more details on this later)

USING THE DESIGNER

DELIVERY ZIP CODE

The initial pop up window will request your delivery zip code. This ensures that there is a dealer assigned to serve the customer address, and it pulls the correct pricing based on the delivery area.

If you have the customer zip code, enter that to proceed. Otherwise, for quick access just enter your lot zip code and click "Start Building" to proceed.

USING THE DESIGNER

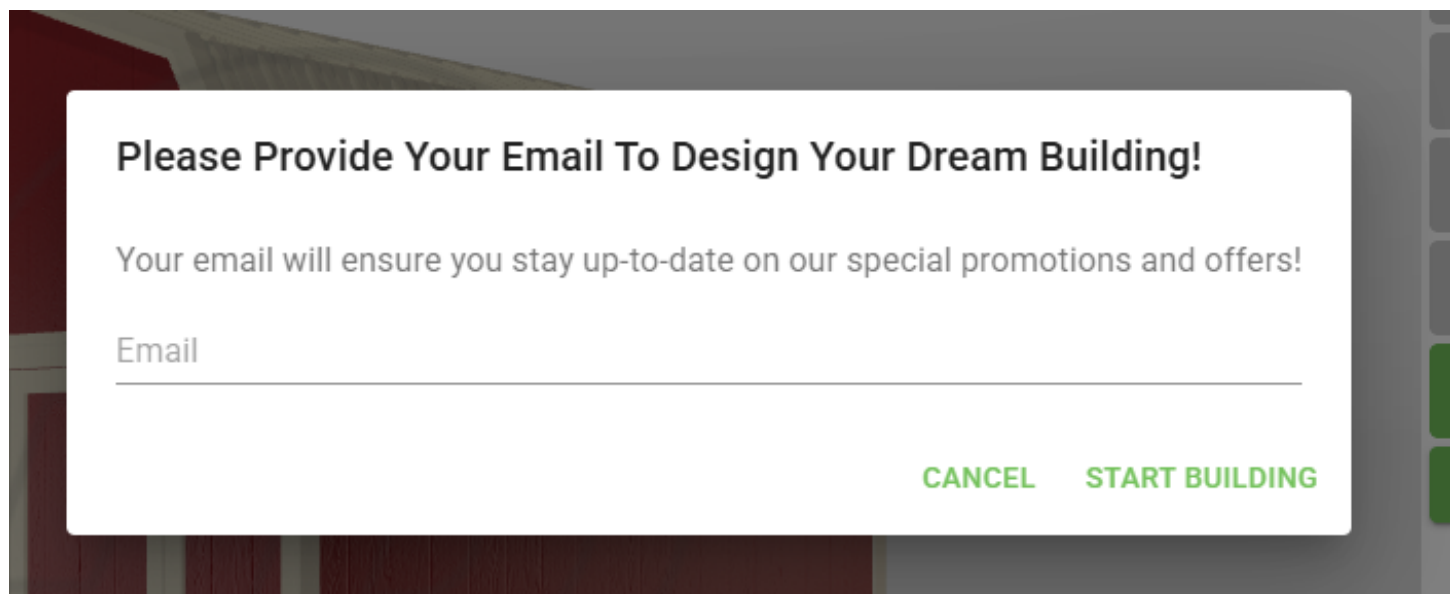

EMAIL POP UP WINDOW

While using the design tool you may experience this EMAIL POP UP window. This is for customers to enter their email address into the Premier E-Mail list for marketing and lead generation.

As a dealer, you can hit cancel or exit to ignore this pop up.

If your customer enter their e-mail address on this pop up, you will have access those email addresses with your idea room dealer login (more on this topic later).

Premier sends out automated marketing e-mails to the collected e-mail addresses.

A screenshot of an email pop-up window. The window has a white background and is overlaid on a blurred image of a building. The title is "Please Provide Your Email To Design Your Dream Building!". Below the title is a line of text: "Your email will ensure you stay up-to-date on our special promotions and offers!". There is a text input field labeled "Email" with a horizontal line underneath it. At the bottom right of the window are two buttons: "CANCEL" and "START BUILDING", both in green text.

USING THE DESIGNER

BUILDING YOUR CUSTOM DESIGN

Use the gray navigation sections to modify each category on your design: STYLE, SIZE, DOORS/WINDOWS/EXT, COLORS, INTERIOR, FLOORING.

Your shop may offer custom options that are not listed on this design tool, if that's the case and you're quoting a building make sure you take into account the option cost for the items not included on the design tool.

NOTE: Computer web browsers will put the custom options on the right side of the window, tablets and mobile devices have these options on the bottom of the screen.

<https://shedview.premierbuildings.us/>

USING THE DESIGNER

SELECT YOUR "STYLE" (Building Model)

Select the STYLE bar to expand the view of building models available.

Select your preferred shed style.

Siding selection is available under this options menu as well, to choose between Urethane Siding and Metal.

Build on Site (BOS) is an option to select on this menu. As a dealer, make sure you know if your shop offers BOS.

*Most changes to the design impact the price of the building.

USING THE DESIGNER

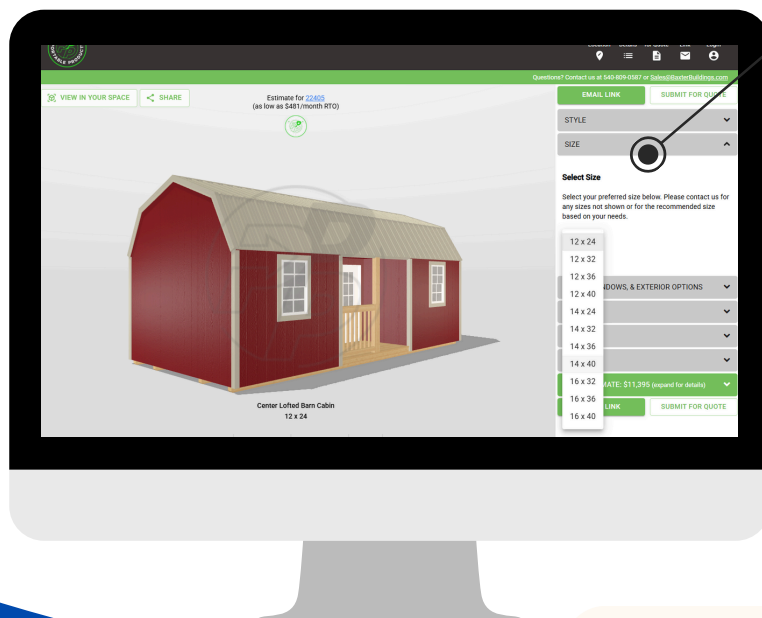

SELECT YOUR "SIZE"

Select the SIZE bar to expand the drop down menu of building size options. Select your preferred building size.

Not all size options are listed, as the drop down includes "brochure building sizes". As a dealer, have an understanding of what sizes your shop can build.

Customer Communication Tip:

"Our shop offers more sizes than what's listed on the design tool. Select the closest size to what you want and I will scale the building design for you. I will also adjust your quote based on the right size for your design."

USING THE DESIGNER

CHANGE “DOORS, WINDOWS, EXT OPTIONS”

Click on the WALL of the building that you'd like to apply your changes to. The applicable wall will highlight with a green line to show that you've selected it.

Use the “DOOR, WINDOW, ROLLUP DOOR” buttons to edit your building design based on the changes that you want.

The design tool will default to one option based on the item button you select, click on that item (on the building) to change the type.

Items that are too large for this wall were removed

If you are trying to add an item that is too large for the wall selected you'll get this error message as a pop up. Select another wall, or remove items on the desired wall to get your item to fit.

You may need to remove a window, add the door first, and then add the window back on the wall to get your desired layout.

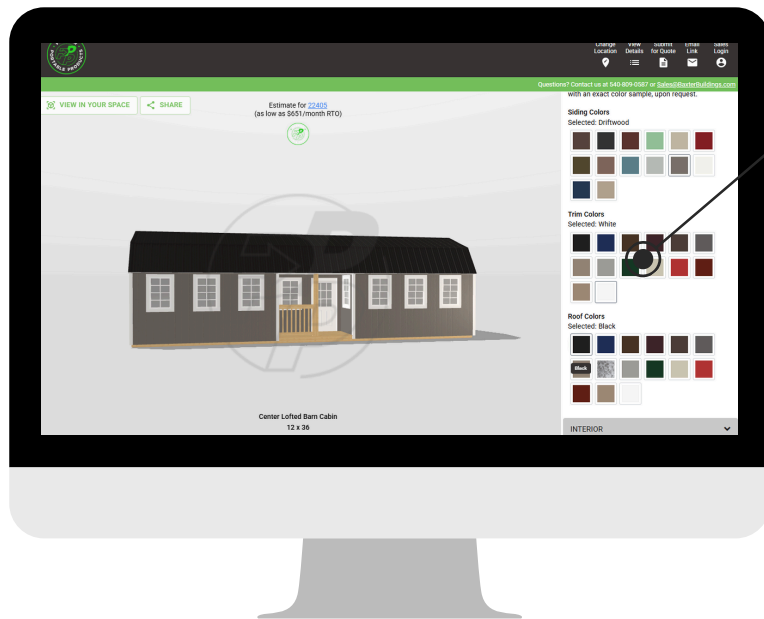

As you move your items around the building lines will populate to show you the measurements between items. Use these to ensure your items are properly aligned on your design.

The exact placement and location will be defined on the final blueprint for your building, which the shop will use to construct the building.

USING THE DESIGNER

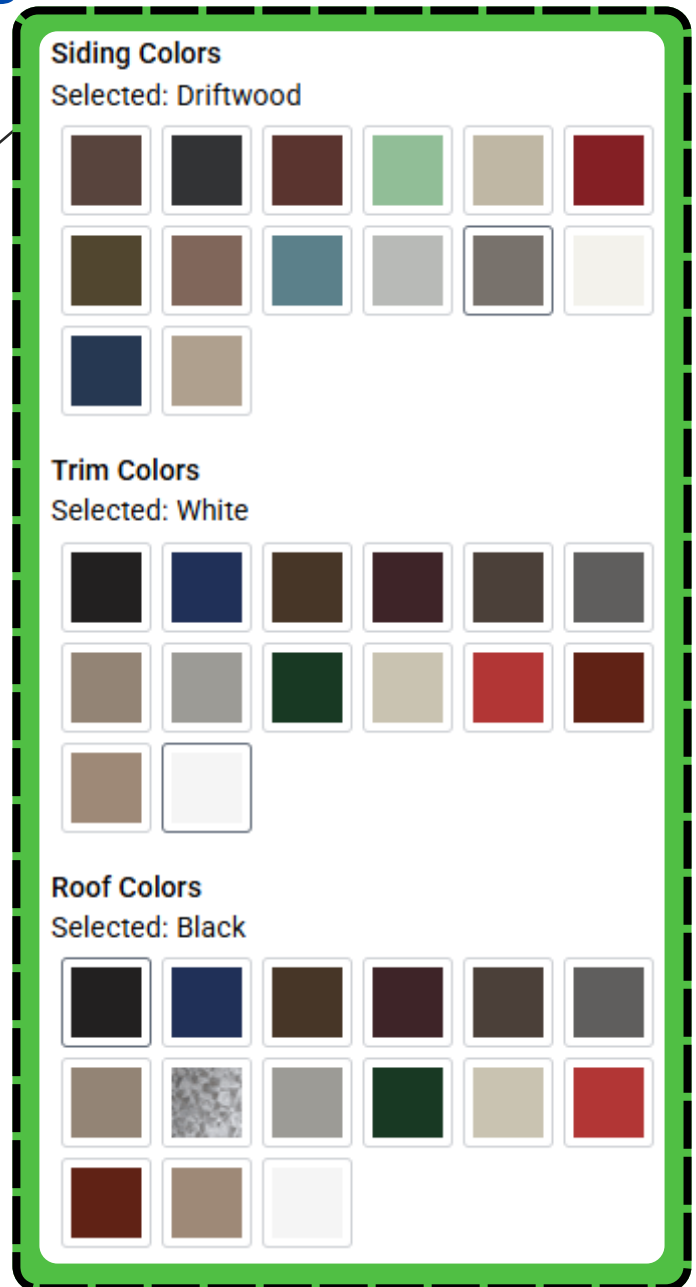

COLORS (Urethane Siding)

Select your building's siding, trim and roof colors.

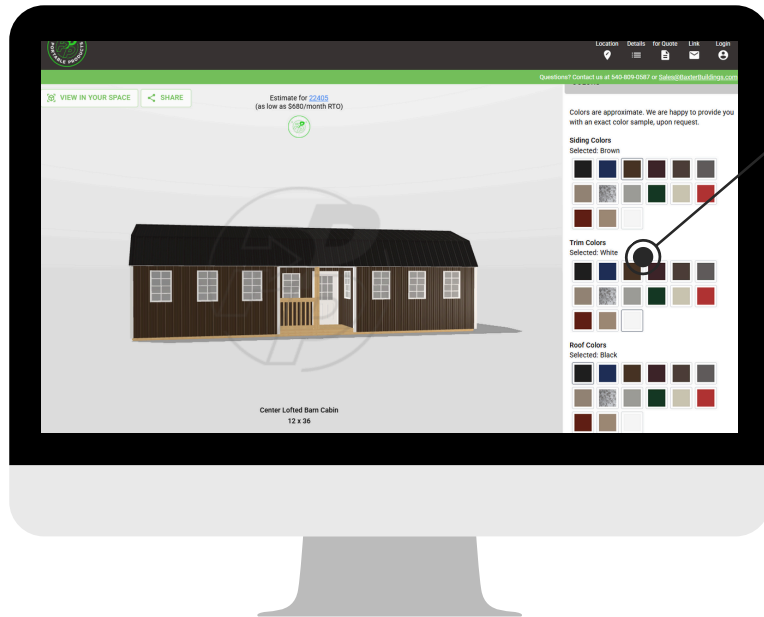

Dealer Tip: Find out if your shop allows custom colors, what paint code they need from the customer, and what option cost to apply.

Design Tip: If your customer hasn't selected colors yet, pick your top selling color combination to make the building stand out when showing off your design preview to the customer.

USING THE DESIGNER

COLORS (Metal Siding)

NOTE: If your building has METAL siding then the color options will change to show metal color options.

Make sure your siding type is selected correctly under the "STYLE" menu before choosing colors.
