# COMPANY PROFILE

Founded in 2008, Infinity Business Solutions is a Software Development, Information Technology Services, Hardware Sales & Maintenance and Consultancy firm providing competitively priced services to companies worldwide.

With our flexible approach, we can act as a client's IT department or supplement an existing IT function. We aim to create long-term partnerships that add value through a combination of high quality support, expert project delivery and well considered strategic advice.

Highly skilled intellectual personnel, most having substantial work experience in diverse areas of Information Technology make up the Infinity Business team. Our management ensures that each individual excels in their specific assigned tasks by working closely with them.

Infinity strive to provide a service which removes the hassle from your IT system. It's easy to see how IT has improved your business but it can also take a lot of time and effort to maintain, time that should be spent on other areas on your business. We believe in making IT a reliable, frustration free addition to your workforce.

# 6 REASONS THAT MAKE US THE PREMIER CHOICE

### INTELLECT & EXPERIENCE
Highly skilled professionals who possess expertise in diverse Business and Technology areas make up the Business Technologies team. To provide professional service, we employ the best technicians, adhere to proven methodology, provide superior client service and become a true business partner in every project.

### OUR APPROACH
Our Roadmap to development is a collection of eight steps, each of which has its own significance.

- o    Data Mining
- o    Forming a sketch
- o    Designing
- o    Making a blue print
- o    Constructing
- o    Testing
- o    Deployment
- o    Maintenance & Up gradation

### COMMITMENT TO QUALITY
We believe in Quality service and our approach has been designed to provide the same. We listen carefully to our clients and provide space, time and materials according to agreement for the project. We are proud of our Technical and Creative capability and this emerges from taking time to get it right. Our Quality Assurance Department tests throughout the process to ensure that the project will be successful.

### ON TIME DELIVERY
We invest the time up-front to clearly understand your needs and then manage projects to ensure they are delivered on time and within budget. This methodology expedites rapid successful implementation, limits uncertainty and keeps the customer always aware of development progress at our end.

### COMPETITIVE PRICING
We render services to our clients at a very competitive price and depending on the type of client engagement we offer them the most suitable pricing model structure which could either be fixed price based, time and effort based or a dedicated professional team model.

### TRACK RECORD
We have handled small - large scale projects and have over the years implemented solutions for numerous organizations of all sizes. Our growing list of satisfied customers' not only act as our excellent references but are also a source of our repeat business.

# IT SOLUTIONS

Your time is precious. You have more important issues to deal with than your computer network. It is, however, a critical enabler to your business and in need of attention to ensure it's running predictably, optimally and securely. Our fully managed program is the ideal solution for an organization like yours, an organization that demands the utmost in network reliability and quality service.

Total IT support and management for a fixed monthly price – it's that simple. We provide all of the benefits of an internal IT department for a fraction of the price of staffing one yourself. We reduce the business impact of IT failures by minimizing their occurrence, and any unforeseen issues are dealt with as a top priority. All aspects of your network are covered: security, data protection applications and hardware.

When you outsource the management of your important IT resources to us, we look upon this as a partnership. Our comprehensive approach means we are your IT department. By optimizing your network's performance, it will work at the peak efficiency and reliability levels that your business demands, allowing you to focus on running your business, not your network. Security, networking, data protection and user support - we handle it all for a single, predictable price

Expertise, thorough knowledge and firsthand experience along with strong Industry specific research skills help us in analyzing, designing and implementing world class solutions.

# SOFTWARE DEVELOPMENT SERVICES

## THE CORE OF OUR BUSINESS

In the last decade, a number of management philosophies have been developed in an attempt to define what companies must do to compete in the new global economy. Emphasis is now placed on the use of enterprise-wide information solutions to impact the decision processes of management. Organizations have rediscovered the basics, realizing that the most effective strategy is to organize their resources in order to achieve better performance.

Today's dynamic business requirements need dynamic information solutions. Generic software is not flexible enough to meet the diverse demands of each unique business. Considering all the aspects in mind we design cost effective tailor built, high performance software for organizations that need made to order, high-end customized solutions

# ERP SYSTEM

When customers have somewhat standard requirements and customization appears to be too time consuming it is recommended to use what is developed and tested before. They can purchase a package that fits their needs to 80-90% and let us modify and install it to make a 100% solution for them.

To address this need, we have a Full ERP System, **Dynamics BS.**

**Dynamics BS** Enterprise Resource Planning (ERP) software and Accounting & finance solutions adhere to a proven and tested methodology, provide superior user-friendly interface along with many other features.
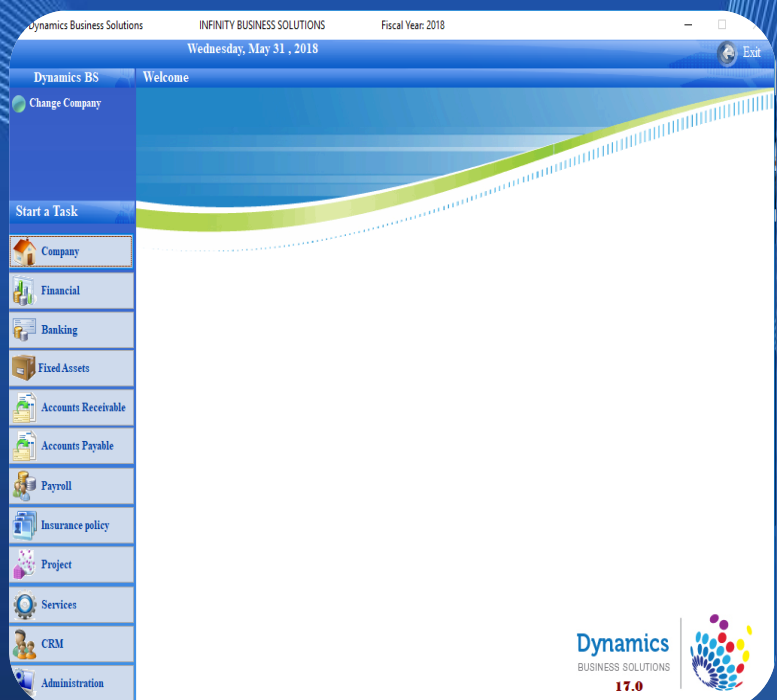

**Dynamics BS** accommodates the unique requirements you have today, and it readily adapts to meet your changing needs. We've found that these qualities make all the difference for owners of small and midsized businesses—leaders who realize that the ability to streamline their processes can be a prerequisite to growth, and who are likewise concerned about what impact that growth will have on their investment in technology.

BENEFITS OF **Dynamics BS**

- Easy to Use and Customize
- Ultimate Scalability
- Designed for Global Business
- Support Multiple Databases
- Multicurrency Support
- Official Reports (VAT, Payroll)

CORE MODULES OF **Dynamics BS** ARE AS FOLLOWING

- Financials (VAT Official Reports)
- General Ledger
- G/L Consolidations
- Multicurrency
- Intercompany Transactions
- Purchasing
- Sales
- Accounts Payable
- Accounts Receivable
- Inventory Management
- Projects
- Payroll System (Official Reports)

# IT HARDWARE SOLUTIONS

A poor IT infrastructure can cause nothing but issues, issues that take time and money to resolve. Here at Infinity Business Solutions we believe that getting a strong underlying IT infrastructure is essential to any business to ensure they're able to deliver a high quality of service to their customers and to support their users as they perform their day-to-day tasks.

Infinity Business Solutions have partnered with global manufacturers to allow us to offer high quality IT hardware. This means we're able to offer a wide range of products from leading brands of computers, servers, networking equipment, storage solutions, printers, peripherals and more.

If you're unsure of what you need then speak to one of our accredited team members, we're able to offer you advice on what IT hardware would be right for the job.

**In addition, we also offer supply, install and support of:**

- Routers
- Firewalls
- Switches
- Data Centers
- Networking Cables
- Wireless access points
- Security System
