

Scott County Farmers' Market Vendor Opportunities

	SUMMER	FALL	VISITING	STUDENT
Things the board takes into consideration when reviewing applications	<ul style="list-style-type: none"> • All locally grown & handmade products. • We are looking for products not currently represented in the market. Can be similar but must offer something different for our customers – i.e. Artisan Bread, Gluten Free bakery, bakery products – 3 different vendors – similar but different products. • Scott County residents are considered first. Vendors living/farming in neighboring counties will be considered when their products are not represented in the market. Other vendors will be considered if they offer a product we don't have. • Like booths that follow a theme – all products go together in some way. Herb booth has seasonings, lavender products, bath salts using herbs & flowers – different products – all use herbs. • Looking for quality handmade products. • All vendors who are making processed food must have the correct certifications from the state. • Our insurance requires that each vendor have 1 million dollars in liability insurance. <p>Additional information can be found in the Rules & Appropriate Product Information. PLEASE READ!</p>

	SUMMER	FALL	VISITING	STUDENT
Product considerations	70% of the vendors must be from farms	Looking for fall/Holiday products No restrictions based on # of farms participating.	Looking for seasonal products – i.e. Plant starts/ spring Pumpkins & holiday products/ fall Due to current vendors & their products extra produce will not be considered i.e. corn in July	Student created – no food products can be considered due to Health requirements
Things to Consider	Vendors should miss no more than 4 days during the season. You must decide if you are going to be involved in fall market before July 1 st to reserve a space.	Vendors should attend in September. Pop-Up markets are optional.	This option is for the vendor who will not have product throughout the whole summer season. Let us know the dates you would be interested in attending. We will schedule dates depending on availability and your product. During the season we have days where vendors are going to be gone. We will be emailing on Mondays if we have any additional space. These will be filled on a first come basis. We want to keep the market full.	We are planning to have 1 booth available each week for students. We want to encourage our young entrepreneurs.
SPACES	Pavilion will be filled first in this order: returning vendors, summer vendors, student, visiting Consideration will be given to vendors needing electricity. Spaces outside the pavilion will require 10' x 10' vendor tent.
