

After Care Instructions

1. Change shirt immediately after treatment.
2. Leave oil treatment in hair for 1 hour. Wash with shampoo and a quarter size amount of dawn dish soap. Scrub scalp thoroughly and condition as normal.
3. Comb wet hair daily for 6 days. Start with tape of neck with an inch of hair. Work your way to the top of your head an inch at a time. Comb and wipe on white paper towel. It is normal to find debris such as nymphs (baby lice)
4. For severe infestations we recommend an olive oil treatment on day 3 for one hour with shower cap. Shampoo and add a quarter size amount of dawn dish soap when shampooing out. Condition as normal. Continue combing through to day 6.

Environmental Cleaning

1. Dry bedding on high heat for an hour. No need to wash bedding unless soiled. You can wash it in cold water.
2. Vacuum flooring if treatment was for young children.
3. Cleaning brushes and hair ties- Either freeze overnight in gallon storage bag or put in bowl and add boiling water and let sit until water cools. Or you can just purchase new hairbrushes.
4. Bag anything that cannot be put in dryer for 48 hours like stuffed animals with batteries. If it can be out in dryer just dry on high heat for an hour. Examples... anything used within the last 48 hours such as stuffed animals, back packs, etc.
5. Make sure to use new clean towel going forward after treatment.

Comb care

Your technician will leave a professional nit comb to be used within the family unless you already have one. Just sanitize between family members. Do not boil as this will cause comb to damage. Clean with hot water and soap.

Our Guarantee

To offer our 100% Guarantee, all Family members must be checked and deemed lice-free from Hair Fairy Godmother (even family members in divided houses), and we must treat any family members who have been found to have lice or nits. If you decide not to have every family member in the household checked/treated by Hair Fairy Godmother our Guarantee is VOID. When the Hair Fairy Godmother leaves, you and your child are no longer contagious. In fact, your child can return to school immediately following treatment. You are Guaranteed to be lice and nit-free when you follow and adhere to the simple follow-up treatment plan given to you by the Hair Fairy Godmother. Your treatment combined with the follow-up will eradicate all lice infestations. It is normal to comb out debris for a few days following treatment. A few nits, nymphs or dead lice do not warrant a return visit. The details will be explained during the appointment.
