

ORDINANCE NO. 15
WORK AND PERMITS FOR WORK WITHIN
DISTRICT EASEMENTS AND RIGHT-OF-WAY

Section 1. Any person or business entity desiring to do any work upon, on or under any public right-of-way or easement owned by Lead-Deadwood Sanitary District No. 1 must obtain a permit from the Manager of the Sanitary District prior to commencing any work.

Section 2. In cases of extreme emergency an applicant may do such work without obtaining a permit in advance. However, under such circumstances the permit must be obtained as soon as practicable thereafter.

Section 3. The permit shall contain requirements providing for protection of District pipelines, equipment and property, including such financial guarantees of performances as determined appropriate for the proper completion and restoration of said right-of-way and easements after the work is completed. All work, repairs and restorations shall be completed within twenty (20) days from the issuance of the permit. The permit shall contain such specifications for repair and replacement as deemed necessary and appropriate by the District's Manager.

Section 4. All permits shall be kept at the office of the District Manager. At the time of obtaining such permit, all applicants shall show evidence of liability insurance in an amount of at least Three Hundred Thousand Dollars (\$300,000.00).

Section 5. All persons or business entities granted a permit shall repair all holes, disturbances, make repairs and restorations within the time as set forth above, and in the event the applicant fails to do so, then the District has the right to undertake said repairs or restorations and bill the permit holder for all costs of completing the same. In addition, the permit holder shall be responsible for any subsequent sinking, or similar problems, appearing within six (6) months from the date of the work. The cost of such work shall be the responsibility of the permit holder.

Section 6. All persons or entities failing to comply with this Ordinance and obtain permits as outlined above, or who fail to complete repairs and restorations as required herein, shall be subject to prosecution under applicable State laws and shall be billed for any and all expenses of any kind, character or description necessary to correct any problems resulting from the failure to obtain a permit.
