

Xist Investment Token (XIT) Launches on Stellar Network: A New Era of Real-World Asset Tokenization

June 2025 – Australia – Xist Holdings proudly announces the official launch of **Xist Investment Token (XIT)** on the Stellar Network – a groundbreaking token that bridges the gap between cryptocurrency and real-world equity ownership.

With **only 30 million tokens minted** and backed by a **30% equity stake in Xist Holdings**, XIT offers investors a unique opportunity: real-world dividends and true equity benefits via blockchain technology. Built for security, transparency, and efficiency, XIT is poised to redefine how traditional assets are tokenized and traded on the global market.

"XIT is more than just a token – it's a gateway for investors to participate in real-world growth through a modern, decentralized

system," says Jamie McCormick, founder of Xist Holdings. "By leveraging Stellar's fast and low-cost network, we're making secure investment accessible to anyone, anywhere."

Key Features:

- **Limited Supply:** Only 30 million tokens minted — ensuring scarcity and long-term value.
- **Dividend Benefits:** Token holders receive dividends linked directly to Xist Holdings' performance.
- **Built on Stellar:** Fast, low-fee transactions with robust security and transparency.
- **Private & Secure:** Cutting-edge privacy features protect investor identity and assets.
- **Available Now:** Tradeable on Stellar DEX via Lobstr Wallet (Android & iOS).

How to Get Started:

- Download **Lobstr Wallet**
- Fund your wallet with **XLM**
- Swap XLM for **XIT**

- Become part of Xist Holdings' future!

With a current market price of just **0.000007**, XIT is an affordable entry point for new investors — as our tagline says:

"XIT... the crypto so low, the only way to go is up."

About Xist Holdings:

Xist Holdings is an innovative private investment company focused on bridging traditional business models with modern crypto-financial systems. Through XIT, the company brings transparency, inclusivity, and blockchain-backed ownership to investors globally.
