

# Securetex Environmental Management Policy

**Environmental Policy**

**Securetex Pty Ltd is committed to minimizing our environmental impact and promoting sustainable practices throughout our operations.**

At Securetex Pty Ltd, we recognize the importance of environmental stewardship and the role that businesses play in preserving and protecting the environment. Therefore, we are dedicated to integrating environmental considerations into all aspects of our business activities, products, and services. Our Environmental Management System (EMS) is designed to meet the requirements of AS/NZS ISO 14001:2016 and to drive continuous improvement in our environmental performance.

**Our Environmental Objectives:**

1. **Resource Conservation:** We strive to minimize resource consumption, including energy, water, and raw materials, by implementing efficient processes and investing in technologies that reduce waste and promote conservation.
2. **Pollution Prevention:** We are committed to preventing pollution at its source by implementing controls and measures to minimize emissions, discharges, and waste generation throughout our operations.
3. **Compliance:** We ensure compliance with all applicable environmental laws, regulations, and standards, as well as internal policies and procedures, to safeguard the environment and minimize our environmental impact.
4. **Sustainable Practices:** We promote sustainable practices, such as recycling, reuse, and sustainable sourcing, to reduce our ecological footprint and contribute to the long-term health and resilience of the ecosystems in which we operate.

## Our Environmental Principles:

1. **Commitment to Compliance:** We adhere to all relevant environmental laws, regulations, and standards, as well as industry best practices, to ensure legal compliance and environmental responsibility.
2. **Pollution Prevention:** We implement measures to prevent pollution, including the reduction of emissions, effluents, and waste generation, through the use of cleaner technologies, process optimization, and waste minimization strategies.
3. **Resource Efficiency:** We optimize resource utilization by promoting energy efficiency, water conservation, and the responsible use of raw materials and natural resources throughout our operations.
4. **Continuous Improvement:** We continually monitor and evaluate our environmental performance, setting objectives and targets for improvement, and implementing corrective and preventive actions to enhance our environmental management practices.

## Processes, Procedures, and Practices:

1. **Environmental Impact Assessment:** We conduct comprehensive environmental impact assessments for new projects, processes, and products to identify potential environmental risks and opportunities for improvement.
2. **Waste Management:** We implement waste management practices to minimize the generation of hazardous and non-hazardous waste, segregate and recycle waste materials wherever possible, and ensure proper disposal of waste in compliance with regulatory requirements.
3. **Energy Management:** We strive to improve energy efficiency by implementing energy-saving technologies, conducting energy audits, and promoting energy conservation practices among employees.
4. **Water Conservation:** We monitor water usage, identify opportunities for water conservation, and implement measures such as the use of water-saving equipment and practices to reduce water consumption and minimize wastewater generation.
5. **Supplier Engagement:** We work closely with our suppliers to promote environmentally responsible practices throughout the supply chain, including the use of sustainable materials, packaging, and transportation options.
6. **Training and Awareness:** We provide training and awareness programs to educate employees about environmental issues, regulations, and best practices, empowering them to contribute to our environmental goals and objectives.

**Compliance and Certification:**

Securetex Pty Ltd is committed to upholding the requirements of AS/NZS ISO 14001:2016 and continually improving the effectiveness of our Environmental Management System. We undergo regular internal and external audits to assess our compliance with applicable environmental standards and regulations, identify areas for improvement, and demonstrate our commitment to environmental responsibility to customers, stakeholders, and regulatory authorities.

**Conclusion:**

At Securetex Pty Ltd, environmental sustainability is an integral part of our business philosophy and operations. By implementing the principles outlined in this Environmental Policy and continually striving for excellence in environmental management, we aim to minimize our environmental footprint, protect natural resources, and contribute to a healthier and more sustainable future for generations to come.
