

## Notice of HIPAA Privacy Practices

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

### INTRODUCTION

South Seneca Community Volunteer Ambulance Corps., Inc. dba South Seneca Ambulance ("SSA") and its affiliates are required by law to maintain the privacy of certain confidential health care information, known as Protected Health Information (PHI). PHI includes any identifiable information that SSA obtains from you or others that relates to your physical or mental health, the health care you have received, or payment for your health care.

We are also required by law to provide you with notice of our legal duties and privacy practices as they relate to your PHI, and to abide by the terms of the version of this Notice currently in effect.

In compliance with that requirement, this notice provides you with information about your rights and SSA's legal duties and privacy practices. This notice also discusses the uses and disclosures that we will make of your PHI, and the ways in which we are required to notify you in the case of a privacy breach. SSA must comply with the provisions of this notice, although we reserve the right to change the terms of this notice from time to time and to make the revised notice effective for all PHI we maintain.

You can always request a copy of the most current privacy notice from our Privacy Officer. In addition, the current effective version of this notice will always be available on our web site.

SSA is required by law to notify you in the event of a security breach involving your unsecured PHI.

SSA may access, or provide access to its Business Associates, a portion of your PHI. These uses and disclosures may include, but are not limited to, the following categories and examples:

**Treatment:** Use of PHI for treatment may include obtaining oral and written information about your medical condition from you or from others, such as doctors and nurses who give orders allowing SSA to provide treatment for you. We may also provide access to your PHI to other health care providers who are involved in your treatment. Due to the nature of our services, we may transfer your PHI via radio or telephone to the hospital or dispatch center.

**Payment:** SSA may use your PHI for a variety of activities that are necessary for reimbursement. Such activities may include forwarding your PHI to a Business Associate billing company, who in turn may submit bills to your insurance company, make determinations about medical necessity and collect outstanding accounts.

**Healthcare Operations:** SSA may use your PHI as part of its internal training and quality assurance programs. This use is intended to ensure that our staff receives regular instruction on how to maintain the privacy of your information and allows management to conduct audits and self-analysis to check that such training is being carried through and actually put into practice.

**Business Associates:** Our organization contracts with Business Associates to provide such services as billing, collections, and software. We may disclose your PHI to our Business Associates to facilitate those services. However, your PHI remains protected because these parties are required by both law and written contract to

apply the same safeguards as those outlined in this document.

### INFORMATION

We may contact you to provide information about health-related benefits and services that may be of interest to you, to obtain feedback, or to remind you of scheduled appointments for non-emergency transport.

We may disclose your PHI only as permitted by applicable law. Permissible sources of disclosure may include your family, friends or other individuals, as identified by you, as being involved in your care or in the payment for your care. In such cases, however, we will only disclose PHI which is directly relevant to that person's involvement in your care or payment. We may also use your PHI to notify a family member or personal representative of your location, general condition, or death. Whenever possible, we will give you an opportunity to object to these disclosures, in which case we will not make the disclosure over your objection. If you are not available, we will determine whether a disclosure to your family or friend is in your best interest. In such cases, we will only disclose the PHI that is directly relevant to their involvement in your care or payment.

When permitted by law, we may coordinate our uses and disclosures of PHI with public or private entities authorized by law or charter to assist in disaster relief efforts.

We may contact you as part of our marketing efforts, as permitted by applicable law.

Public Health: We may disclose your PHI to public health or legal authorities responsible for preventing or controlling disease, injury, or disability, or performing other public health functions, in those situations in which the law requires us to do so. In addition, we may disclose your PHI to avert a serious health or safety threat.

Specialized Government Functions: As required or permitted by law, we may disclose your PHI for veterans' or military activities, national security and intelligence activities and similar special governmental functions.

Health Oversight Agencies: Your PHI may be disclosed to an appropriate health oversight agency, public health authority or attorney involved in health oversight activities.

Law Enforcement: We may disclose your PHI as required or permitted by law for law enforcement purposes, or in response to a valid subpoena, court order or other binding authority.

Judicial and Administrative Proceedings: We may disclose your PHI for judicial or administrative proceedings as required or permitted by law, or in response to a valid subpoena, court order or other binding authority.

Food and Drug Administration: We may disclose to the FDA, or an entity subject to FDA jurisdiction, your PHI for public health purposes related to the quality, safety or effectiveness of an FDA-regulated product or activity for which that person has responsibility. For example, your information may be disclosed in connection with the reporting of an adverse event, product defect, product tracking or to provide post marketing surveillance information.
