Subcontractor of the Year!

Michels Construction

With 30 years' experience in the construction industry, Paul & Kate Michels along with their 3 oldest sons started Michels Construction in January 1981. Backed by a strong work ethic and a solid reputation in the industry, the family business has grown into a strong work force of 75 plus employees while maintaining their reputation for integrity and quality over the past 41 years.

From the early days of taking on various concrete and small sewer jobs, the company now includes all aspects of site development, including water, sanitary, and storm sewer installation and repairs, asphalt paving, grading, concrete streets, and C&G. In 2001, the company began the transition to their present location in Hebron. This move included the newly constructed asphalt plant, maintenance shop, and eventually office operations.

Now operating with a strong experienced team of construction professionals, the Michels family and their employees continue to operate with the same strong work ethic, humility, and reputation instilled in them by Paul & Kate from those modest beginnings and over the past 41 years.
