ABOUT

Max E McCabe is a multifaceted artist whose creative journey is a testament to a life rich in diverse experiences. Hailing from **South East London** but having traversed the globe, with stints in the Alps of France, Madrid, Barcelona, and Switzerland, Max draws inspiration from the tapestry of cultures and environments he's encountered.

His musical palette reflects this eclecticism, encompassing a love for retro sounds reminiscent of the **80s and 90s, with influences** ranging from the dark melodies of The Cure to the raw energy of Nirvana and the eclectic genius of Prince.

Beyond music, Max's artistic endeavours extend to acting, with notable appearances in the acclaimed series **"Star Wars: Andor"** and as a stand-in actor for James Corden's "Mammals."

Yet, it's through his guitar, both acoustic and electric, that Max truly channels his creative essence. As he delves into the realms of sound, he captures the essence of his adventures, love for travel, and penchant for deep conversations. Currently residing in East Anglia, specifically Peterborough, Max is on the cusp of unveiling his debut album, **'Bad Cupid'**, slated for release in 2024. With the **debut single 'Anyway'**, recorded at Backlands Studio in Elmington, Max collaborates with the exceptionally talented **Christopher Barn**, setting the stage for an exciting musical journey ahead.

Through his music and performances, he invites audiences to join him on a transcendent voyage, where every chord strummed and lyric sung carries the weight of a life lived to the fullest.

As he prepares to share his debut album with the world, Max stands as a testament to the transformative power of creativity and the boundless possibilities that lie within the realm of artistic expression.
