

## **Disclaimer**

### **Risk Disclosure:**

Trading in stocks, options, binary options, forex, and futures involves substantial risk and is not suitable for every investor. These markets offer the potential for high rewards but also come with significant risk. You must carefully assess your financial situation and risk tolerance before engaging in any trading activities. Do not trade with money you cannot afford to lose, especially when dealing with leveraged instruments such as binary options, futures, or forex.

This website does not constitute a solicitation or an offer to buy or sell stocks, futures, options, or any other financial instruments. No representation is being made that any account will or is likely to achieve profits or losses similar to those discussed on this website. Past performance of any trading system or strategy does not guarantee future results. Trading can result in the loss of your entire investment due to factors such as market conditions, mechanical errors, emotional decisions, news events, and earnings releases.

### **CFTC Rule 4.41 – Hypothetical or Simulated Performance Results:**

Hypothetical or simulated trading performance has inherent limitations. Unlike actual trading, simulated results do not reflect real-world market conditions. Since these trades have not been executed, results may overcompensate or undercompensate for factors such as liquidity constraints.

Furthermore, simulated trading programs benefit from hindsight and do not guarantee that actual trading will achieve similar results. No representation is made that any account will or is likely to achieve profits or losses similar to those shown.

### **Liability Waiver:**

By using this website, you acknowledge and accept full responsibility for any trading decisions you make. The owners, operators, affiliates, employees, partners, and agents of **The Nile Traders** disclaim any liability for financial losses, damages, or other consequences resulting from the use of this website or its content.
