Did You Know: Elvis and The Beatles Edition

Did you know that on August 27, 1965, The Beatles met Elvis Presley? This actually happened when they were taking a break in their 1965 North American Tour. The meeting was arranged by Elvis' manager Colonel Tom Parker, and The Beatles and their manager Brian Epstein were looking forward to it. There were some ground rules that were set for this event. There was no press, no pictures were taken, no recordings from the meeting were made, and their plans were not leaked in advance. The Beatles were pretty nervous, and the encounter started off with silence in the air until Elvis finally said "If you guys are just gonna sit there and stare at me, I'm gonna go to bed." There was some small talk going on between Elvis and The Beatles as they told each other stories about their tours, but the fun really started when Elvis asked for some guitars to be brought into the room. Once The Beatles and Elvis started to jam out together, there was a lot more energy in the atmosphere. Everybody was singing some fantastic tunes. Their conversations then became more lively when they talked about their fans, touring, and the movies they made. Elvis was a big influence on The Beatles' music, and this meeting between the two great musical acts was legendary!

Selena Gomez

Selena Gomez is an amazing singer, actress and producer. She started her acting career on the children's tv series Barney And Friends. As a teenager, her acting career transcended from starring as Alex Russo on the Disney Channel tv series Wizards Of Waverly Place. She was born July 22 in 1992 and she is now 30 years old. Selena Gomez appeared in the movies Another Cinderella Story in 2008, Wizards Of Waverly Place The Movie in 2009, and many more. Selena Gomez has released 3 albums and they all rose to the top 10 of the US Billboard 200. I really like Selena Gomez because she is the best singer. Some of my favorite songs I like by Selena Gomez are Cruella De Vil and Tell Me Something I Don't Know. I like those songs because I like to watch Selena Gomez music videos on Youtube. I also like her style of music.

Parkway Drive Show

Robert V.

On February 10th Parkway Drive played a sold out Paramount show with Memphis May Fire and Currents. The set was a mix of older and newer songs. This was the first time they have come to the US since covid. Andrew, Matt, TJ and I went to the Paramount to see what the hype was about. The venue is one I've been in before. The set and lighting were incredible for this venue. The setlist was the perfect blend of new and old. Although a small venue Parkway Drive made surprisingly good use of the venue, putting a second row of lights on top of where the audience was standing. They provided a new effect to those sitting in the seats. My favorite songs were Soul Bleach and Bottom Feeder. Soul bleach is my favorite one from the current album. The Bottom Feeder is my favorite one of all time. The band has been around for over 20 years. They thanked everyone for showing up many times. Overall this was a great show and a great night out with friends.

Pet Of The Month - Carbon

Our pet of the month is Carbon. Carbon is a 1 year old shepherd mix that came to us from an overcrowded shelter in Georgia. Carbon is a super friendly and playful guy but is basically an overgrown puppy.

We are seeking a dog experienced family dedicated to continuing his training. With a little patience and a lot of love we are sure he will learn his manners in no time! Carbon is happy to meet humans and other canines alike.

If you are interested in learning more about Carbon, please call the Town of North Hempstead Animal Shelter at 516-869-6311 or email animalshelter@northhempsteadny.gov to request an adoption application.

Motly Crue and Guns n Roses

Jonathan O.

Motley Crue and Guns and Roses are friends. They did a tour together in the 80s and 90s. They really inspired me and other people because the drums and the guitar solos are really good. Motley Crue also has great guitar solos. Guns and Roses also has great guitar solos. Especially in the song Sweet Child O Mine. There is another good guitar solo in Knocking on Heaven's Door, Paradise City, November Rain and the song Patience. Patience is also a great song for the acoustics. Motley Crue did a movie called The Dirt. Slash, the lead guitarist of GNR and Mick Mars', the lead guitarist from Motley Crue guitar solos are so good and they're so cool. Motley Crue and GNR are famous for their guitar solos. Mick and Slash have similar guitar solos and similar looks. It's amazing how Mick Mars is alive and still has Ankylosing Spondylitis. It's a good thing that he's healthy. Without music life would be a mistake.
