Did You Know: Daisy Jones and The Six

Recently, I discovered a new miniseries that I highly recommend for anyone who loves music. This show is called *Daisy Jones & The Six*, and it also happens to be the name of the rock band in the show itself. It's actually based on a novel of the same name by Taylor Jenkins Reid that was released in 2019. This miniseries has a fantastic story, drama, romance, and of course some great music. *Daisy Jones & The Six* takes place in the 1970s, and is about the rise and fall of a fictional rock band. They were one of the biggest bands of all time, then suddenly after a sold out show in Chicago in 1977, the band split up. Nobody knew why, until decades later when the band members and their inner circle agreed to reveal the truth. This show explores their rise in the LA music scene, their journey to become famous, and the reason behind their breakup at the height of success. When I first saw the promos and trailers for this show, I had a feeling I was going to love it when I started watching it. I was right, *Daisy Jones & The Six* is one of the greatest miniseries ever made! It premiered on March 3, 2023 on Amazon Prime Video, and it has 10 episodes in total that were released in weekly batches of two or three episodes. If you're a big music lover, and if you have Amazon Prime Video, then you should definitely experience the fascinating story of *Daisy Jones & The Six*.

Words Of Wisdom

William S.

"If You Can Dream It, You Can Do It "

The purpose of this quote is to show that anything can happen with a little bit of creativity. While a majority of the characters were Walt Disney's idea, they took many people to get them where they are today. It took a lot of people a lot of hard work and skill to create the movies we know and love today. This quote is meaningful to me because I have been to the Walt Disney World Resort many times and it took a lot of people's skills to build it.

"Life is like a camera. Focus on what's important. Capture the good times. Develop from the negatives. And if things don't work out, just take another shot."

We don't always have the best days, but we have to remember to focus on the good things in life. Even though things don't always work out the way we want them to, there will be opportunities for us to keep trying. In fact, there is a quote by Zaid K. Abdelnour that states "Life is like a camera. Focus on what's important. Capture the good times. Develop from the negatives. And if things don't work out, just take another shot." This quote is definitely something I should remember if I ever felt like giving up, and would need some encouragement to move forward instead.

Did You Know: Hawks Of The Sea

Spring has sprung once again and life is starting to bloom. Animals have come out of hibernation while others have migrated back from the south. One of the many migrators are sea hawks known as the Osprey. These birds of prey migrate in September and arrive back in early or mid March. The male is usually the first to arrive, making sure that the area of their nesting site is safe for their future chicks. Once all is secure, the female finally arrives and throughout March to May, the pair will start breeding. Ospreys mate for life, so each year it will be the same pair from the last. How can you tell male and female apart? There are two ways. The females are somewhat bigger than the males and have more brown markings on the chest area whilst the males have little to no markings on the chest. Around the end of April, the female Osprey will lay from two to four eggs about three days apart and the eggs will hatch around the end of May or the beginning of June. These Birds of Prey have an exclusive diet for fish, so the male will go out, catch a fish and bring it to the nest where the mother does her part in parenting. With her sharp beak, she will rip chunks of the fish and delicately feed them to the hungry chicks. She will take turns feeding each chick and herself. When the chicks are seven or eight weeks of age, they will begin to fledge and will leave the same month as the mother and father will migrate. First the father leaves then the mother and then at last, the offspring. But the offspring don't stay with the parents. They begin to live their life independently, finding a forever mate, migrating and starting the cycle over once again.

The Funnies

Tara W.

What is a genie's favorite part of a turkey? The wishbone

Why is Peter Pan always flying? Because he never lands.

Why can't Cinderella play soccer? Because she always runs away from the ball.

Why did pongo lose the hide and seek game? Because he got spotted.

Why was the easter bunny so upset? He was having a bad hare day.

How does Darth Vader like his toast? On the dark side.

Pet Of The Month - Ziti

Our pet of the month is Ziti. Ziti is a 4 month old hound/jack Russell terrier mix that was found abandoned and brought to us by concerned citizens. Ziti is a typical happy-go-lucky, high energy girl that is seeking a loving family dedicated to doing all the puppy training.

If you are interested in learning more about Ziti please call the Town of North Hempstead Animal Shelter at 516-869-6311 or email animalshelter@northhempsteadny.gov to request an adoption application.

Facts About Batman

1. The Batman was originally supposed to star Ben Affleck, but instead starred Robert Pattinson and was supposed to be set in the DC Extended Universe but wasn't.
2. It was then repurposed to be a reboot for the batman film franchise to be about a younger more inexperienced batman.
3. The villain was originally intended to be Deathstroke when Ben Affleck was starring in it but when Matt Reeves took over he chose to be the riddler instead.
4. Once Matt Reeves and Robert Pattinson took over the release date was changed from 2021 to 2022.
5. Ben Affleck's script for his Batman movie was also supposed to explore more about his sidekick Robin's death.
