Great Times at Adventureland

By Brandon B.

I recently went to an Amusement Park that I love called Adventureland with my friends from the Nicholas Center. It's always a fun place to go to because there are so many fantastic rides to go on. There are roller coasters, flying swings, a ferris wheel, bumper cars, a train, etc. The Turbulence Coaster is one of my favorites because it's very fast, it goes very high, and the seats spin and twirl. I also like bumper cars because you get bumped into other people's cars.

While there, I also discovered that there's a new ride coming soon called, FireBall that looked thrilling and exciting! I can't wait to see what it's like! There are a couple of rides in Adventureland that I have never been on. One is the Frisbee. It swings and spins at the same time. However, I've been thinking that maybe I should try it when the time is right.

There is always so much to do in Adventureland, and it's always so much fun when I go there. Adventure Land has always been one of my favorite Amusement Parks of all time. I hope that I can go back there again very soon.

Elvis Like Never Before

By Nick P.

"Elvis has left the building!" Warner Bros. proudly presents a true story on one of the greatest singers of all time - Elvis Presley.

He was the king. And now, this film starring Austin Butler and Tom Hanks, tells the story of the life of Elvis Presley. Starting from his days as a skinny and poverty-stricken child to becoming the famous Rock 'N Roll singer and the movie star he was best known for. The story sheds light on how Elvis Presley rose to fame in the early 1950's while maintaining a complex relationship with his manager, Colonel Tom Parker. The road to success was not easy. In fact, some people tried to put Elvis in jail because of his promiscuous dance moves. This got him into trouble several times with the law.

Several songs by the real Elvis Presley will even be featured in this film, as well. The film will be dedicated to the memory of The Ladd Company's founder, Alan Ladd Jr. Aside from Butler and Hanks, this film also stars: Helen Thompson, Richard Roxburgh, Olivia DeJonge, Luke Bracey, Natasha Bassett, David Wenham, Kelvin Harrison Jr., Xavier Samuel, and Kodi Smit-McPhee. Not that much information has been revealed about this upcoming film. Only time will tell how spectacular this film will be.

Elvis will be released on June 24, 2022 from Warner Bros. Don't miss it! I am looking forward to seeing this film since I love anything by Warner Bros!

Don't Miss Dock Day

By Max C.

On Sunday, June 5th, 2022, HarborFest will be having a Dock Day and Craft Fair at the Town Dock from 10 AM-5 PM in Port Washington. They will have activities such as a craft show, beautiful cruises around Manhasset, fire boat demonstrations, activities for children such as games, crafts, and sports, and many more.

I think the most interesting part of the event would be the craft fair because I would enjoy seeing all the different art projects that people have created. I think the cruises around Manhasset would be fun because I would enjoy taking a boat ride on the water around Manhasset to see all the different places surrounding the area.

Overall, I would suggest that everyone around the community should attend this fair so that they can experience everything that it has to offer.

Tito Is Our Pet Of The Month

Handsome Tito is a 3-year-old Staffie mix that is ready to find his new home! He was a stray, but, someone must have shown him love in the past. He is very smart and affectionate and he knows all of his commands! Tito is a good walker, and loves catching treats and sitting in the sun. He can be strong on a leash, so he should not be walked by any children in the home. He enjoys meeting new people, but he has yet to be dog tested at this point.

If interested in learning more, please call at 516-869-6311 or email at animalshelter@northhempsteadny.gov to request an application for adoption.

Keep Calm and Fidget On

By Natalya F.

Ever since Social Media was introduced to the world, people have started different trends such as ASMR, TikTok dance moves, selfies, or just making funny YouTube videos. But one trend that has become popular worldwide is fidget toys. We all fidget. When we are nervous or scared, we pick up a random item and play with it to ease that anxiety and fear. We have so many fidget toys nowadays like the fidget spinner, the fidget cube, fidget bands, Pop-Its, etc. and we bring them everywhere. We take them to school, to the parks, to the doctors, to business meetings, and even to job interviews.

Now you're wondering, why do we take these silly little things around wherever we go and why are they such a loved possession? Most people don't know this and are surprised that fidget toys can actually help you focus more and help you control your anxiety faster and easier. It can help you focus easier on things such as school work, or having conversations with your friends, parents, or anyone you are talking to. Believe it or not, fidget toys are actually a good thing to have in our lives and it's helped so many people come out of their comfort zone. If you are considering buying one, there is no need to worry about expenses, because most of the fidget toys cost so little from \$1.00 - \$10.00. It's amazing how such small toys can have such a great impact on us.
