

1.Consultation fee (first visit): app. 56,000 won/specialist

2.Expected exams: viral screening blood tests(HBs Ag, HCV Ab, HIV Ab, CMV IgM, EBV IgM, HSV IgM, VDRL), blood clotting tests(app. 500,000 won in total). The price may be elevated if other tests are required.

** If viral testing was completed in the last 3 months, please bring copy of the results.

** Please bring copy of the recent radiology images, exams' results, treatment summary etc. to be translated in English or in Korean as possible for a quick and accurate treatment process.

** After a preliminary exam, additional test(s) and/or other specialty consultation/referral may be necessary.

3.Expected treatments: Further treatment plan will be decided after examining the patient closely and on the basis of the results of the tests done. Below information refers only treatment plans in general.

A. Treatment process:

[First meeting at the Outpatient clinic]

- Consultation and evaluation, proceeding necessary exams

[1st admission (2 nights 3 days)]

- #1 bone marrow extraction

- deposit for #1 NEURONATA-R (36,000,000 won) (2 vials)

[2nd admission (5 nights 6 days)]

- #2 bone marrow extraction

- CSF(cerebrospinal fluid) collection

- #1 NEURONATA-R injection

- deposit for #2 NEURONATA-R (36,000,000 won) (2 vials)

[3rd admission (4 nights 5 days)]

- CSF collection

- #2 NEURONATA-R injection

** The Stem cell therapeutic agent, NEURONATA-R, costs 18,000,000 won/vial and at least 2 vials are required for an optimal treatment. (Neuronata-R treatment is 1×10^6 cells/kg (million cells/kg). each vial treats body weight of 40kg, 4×10^7 cells/vial)

** Please note that an additional vial may be required according to the patient's body weight and the cost will be added accordingly.

i) for standard body weight(40-80kg) ► 2 vials of NEURONATA-R are required for 1 injection (so, 4 vials in total: 72,000,000 won)

ii) for overweight(80-120kg) ► 1 vial will be added to the standard dosage (3 vials/injection, 6 vials in total: 108,000,000 won)

** Please refer to the attached file for more in detail about dosage according to the body weight and its price.

B.Minimal length of stay in Korea:

[1st admission] app.2-3 dys

[2nd admission] app.5-6 dys (an interval of 4 wks after the first bone marrow extraction)

[3rd admission] app.4-5 dys (an interval of 4 wks after the second bone marrow extraction)

** You can come and go to your country during the resting period.

** Length of stay may be changed depending on results of exams and/or actual treatment plan.

C.Minimal costs to be prepared:

[Outpatient clinic] app. 500,000 won

[1st admission] app. 40,470,000 won (#1 NEURONATA-R (2 vials) deposit and VIP-S room fee included)

[2nd admission] app.42,650,000 won (#2 NEURONATA-R (2 vials) deposit and VIP-S room fee included)

[3rd admission] app. 4,440,000 won (VIP-S room fee included)

** In total, app.90,000,000 ~ 100,000,000 won (**app. 90,000~100,000 \$**) are required in *minimum* average.

** There might be an elevation in price if there are additional exams and/or treatments that may be required.

** If NCV&EMG testing is required app. 1,000,000 ~ 2,500,000 won will be incurred and the cost depends on the testing range.

** If genetic exams are required app. 1,000,000 ~ 2,000,000 won will be incurred and the cost depends on the types of genetic tests ordered.

** VIP-S room fee: 610,000 won/night

	Admission	Bone marrow extraction	CSF collection	Neuronata-R injection	Discharge	Length of stay
1 st admission	D1	D2	X	X	D3	2N 3D
	App. 40,470,000 won (app.40,470\$) (#1 NEURONATA-R (2 vials) deposit and VIP-S room fee included)					
2 nd admission	D1	D2	D3	D4 (#1 Injection)	D6	5N 6D
	App. 42,650,000 won (app.42,650\$) (#2 NEURONATA-R (2 vials) deposit and VIP-S room fee included)					
3 rd admission	D1	X	D2	D3 (#2 injection)	D5	4N 5D
	App. 4,440,000 won (app.4,440\$) (VIP-S room fee included)					

** conversion rate if : 1\$=1,000₩

** Deposit for NEURONATA-R injection : 36,000,000 won / 2 vials / time (app.36,000\$ / 2 vials / time)

** ROOM FEES PER NIGHT (from Jan.1 2018)

ROOM TYPE 병실등급	COSTS (KRW)	App. USD
VIP room (S/M/V)	610,000 / 910,000 / 1,210,000	610 / 910 / 1,210
