

Change Process

They see you as chumps!!!

Go this way if you don't want to be a chump. Otherwise, stop here. It's a matrix(**red pill**, **blue pill**) moment. You won't be able to unsee what's next once you see it. There's no plugging back in. **WARNING** - Do not proceed if you want to remain naive.

Demagogue:

a political leader who seeks support by appealing to the desires and prejudices of ordinary people rather than by using rational argument.

as a verb:

rhetorically exploit (an issue) for political purposes in a way calculated to appeal to the desires and prejudices of ordinary people.

Demagoguery:

political activity or practices that seek support by appealing to the desires and prejudices of ordinary people rather than by using rational argument.

Step 1 - Ask yourself this, "Am I a lazy, prejudice person who is willingly going to go along with a politician or political party who uses emotions to manipulate me?"

Yes or No

If you said yes to the last question, stop here and don't move on. It will be a waste of your time. If you said no, feel free to continue.

Step 2 - Learn to manage emotions. It helps you prevent being played. This isn't easy but it's doable. I'll expand on this in a podcast again soon as a refresher.

Step 3 - Learn to identify elitism/superiority by seeing the lies, secrets or deceptions. Some people think they are better than you and it's pretty obvious who those people are when they don't use rational arguments but default to demagoguery. It's particularly obvious when they are backed into a corner by rational ideas.

Step 4 - Remember how naive you were. Humility helps you avoid becoming a demagogue or elitist.
