PARTNER BRANDS 2025/26

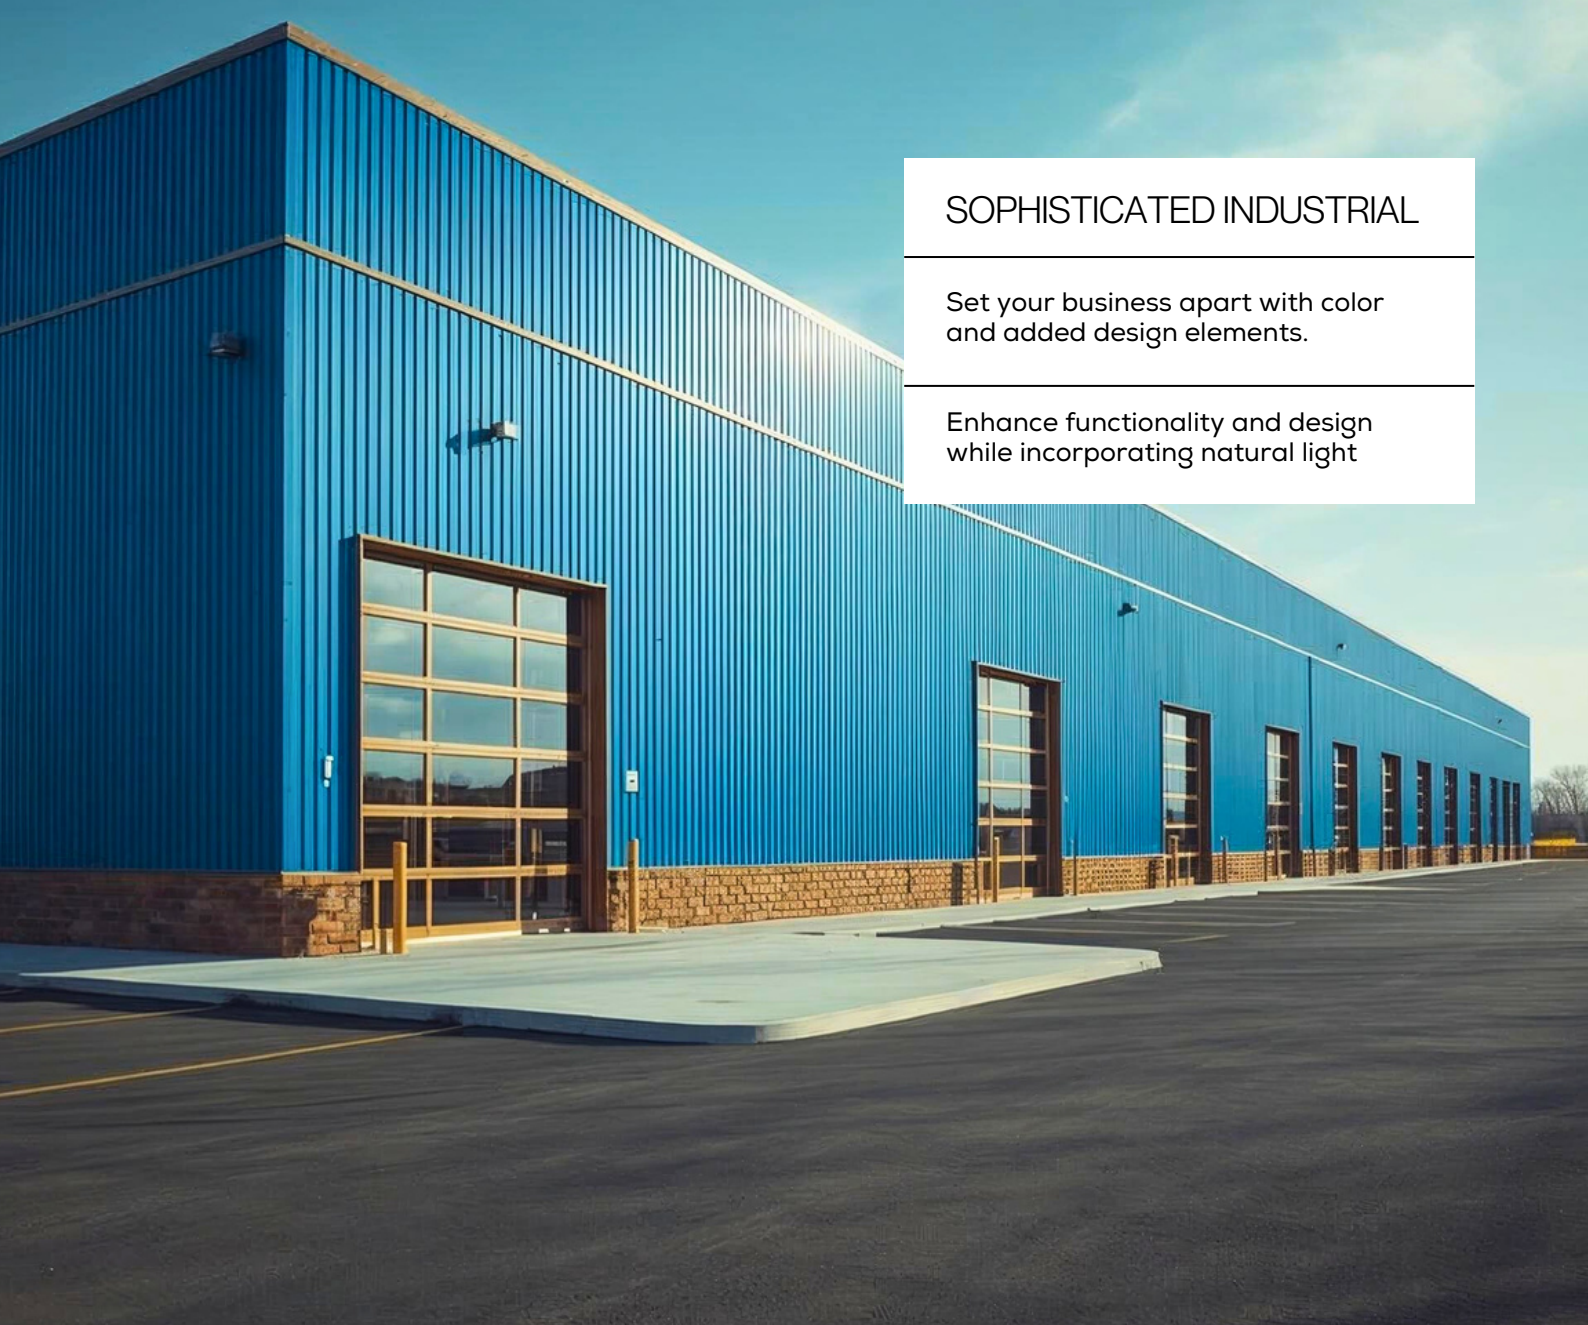

# Finally, design meets steel.

At Buffalo Steel Structures, we firmly believe that you shouldn't give up style just to gain the benefits of building with steel. Don't settle for basic and uninteresting when you can have both form and function. Whatever your need or application, we can work with you to create a design that is not only completely functional, but one that also suits your style and design preferences.

Whether you're in the market for a small shop building or new vacation property, a monumental warehouse space or a fully functional industrial complex, we can help you navigate through the process from design to delivery.

## SOPHISTICATED INDUSTRIAL

Set your business apart with color and added design elements.

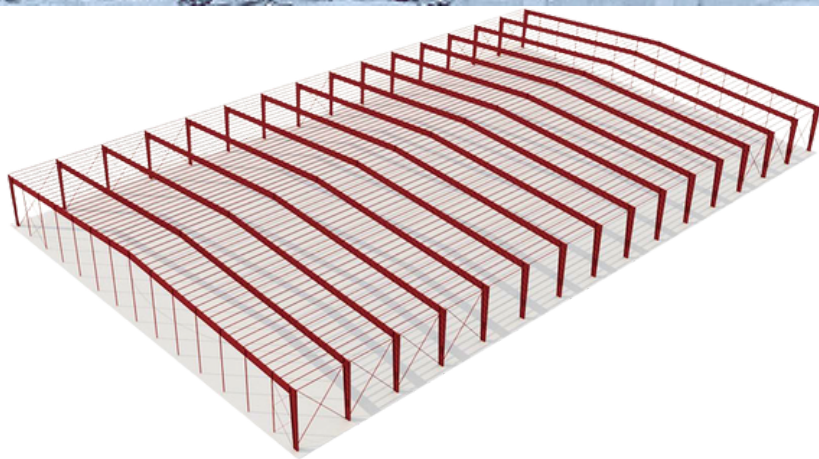

Enhance functionality and design while incorporating natural light

# Elevate Your Environment

Maximizing the functionality of your building can take precedence over the aesthetics of the design, and we understand that. Efficiency comes first when building for your business. That's why it's imperative to work closely with your architect AND your supplier to determine how best to design the space for your particular needs. This is exactly why, as your dedicated project coordinator, we've partnered with some

of the top pre-engineered steel building and structural steel companies in the country. By combining their engineering expertise, extensive knowledge of building codes and premier partner manufacturers with our process management know-how and client first approach, we provide a first rate experience throughout the design-to-delivery process creating clients for life.

# PRE-ENGINEERED STEEL BUILDINGS

AISC certification is a big deal. A steel fabrication or erection company must successfully complete a multi-stage process involving submitting an application and documentation, undergoing rigorous administrative and eligibility reviews and passing an in-depth documentation audit and comprehensive on-site audit by Quality Management Company, LLC. This process confirms the company has the necessary

personnel, procedures, equipment and commitment to meet the AISC standards for a specific certification category ensuring error prevention throughout fabrication or erection. Critical to ensuring your final product is not only delivered with the highest quality, but that the process from start to finish is professional and without mistakes. Rest assured, our steel partners will always be AISC certified.

**Our Partners Include:**

# CAPITAL STEEL INDUSTRIES

- 100% American Made Steel With 50 Year Warranty
- Industry Standard for Building Quality
- Buildings Engineered with Your Location in Mind
- Pre-screened Qualified Contractors
- Contractors Trained by Capital Steel Corporate
- AISC Certified

# FRAMECORE KITS

**AUTHORIZED  
DEALER**

- 100% American Made Steel With 50 Year Warranty
- International Building Code Compliant
- Buildings Engineered with Your Location in Mind
- Simplified Industry Practices

- Commercial Solutions
- Industrial Complexes
- Warehouse Buildings
- Data Centers
- Manufacturing Hubs
- Agricultural Facilities
- Arenas
- Distribution Centers
- Airplane Hangars
- School Facilities
- Shooting Ranges
- Church Buildings

Truly endless applications.

# UNLIMITED POSSIBILITIES

## BUFFALO DESIGNS

Unlocking what's possible is the exact thinking behind the creation of Buffalo Designs. We love the cost savings that typically come with steel construction, but rarely do we see a high level of creativity in design.

That is now a thing of the past.

In 2026 we will introduce our first line of exclusive designs available as complete "cart ready" packages with just a few clicks and shipped directly to your site. This will allow us to simplify the buying process for our clients as well as streamline production to bring these stunning buildings to market as budget friendly solutions for those with an eye on efficiency. All while maintaining the highest quality materials possible and impeccable engineering standards.

The future is bright.

# VACATION IN STYLE

## OH, HEY, VACAY

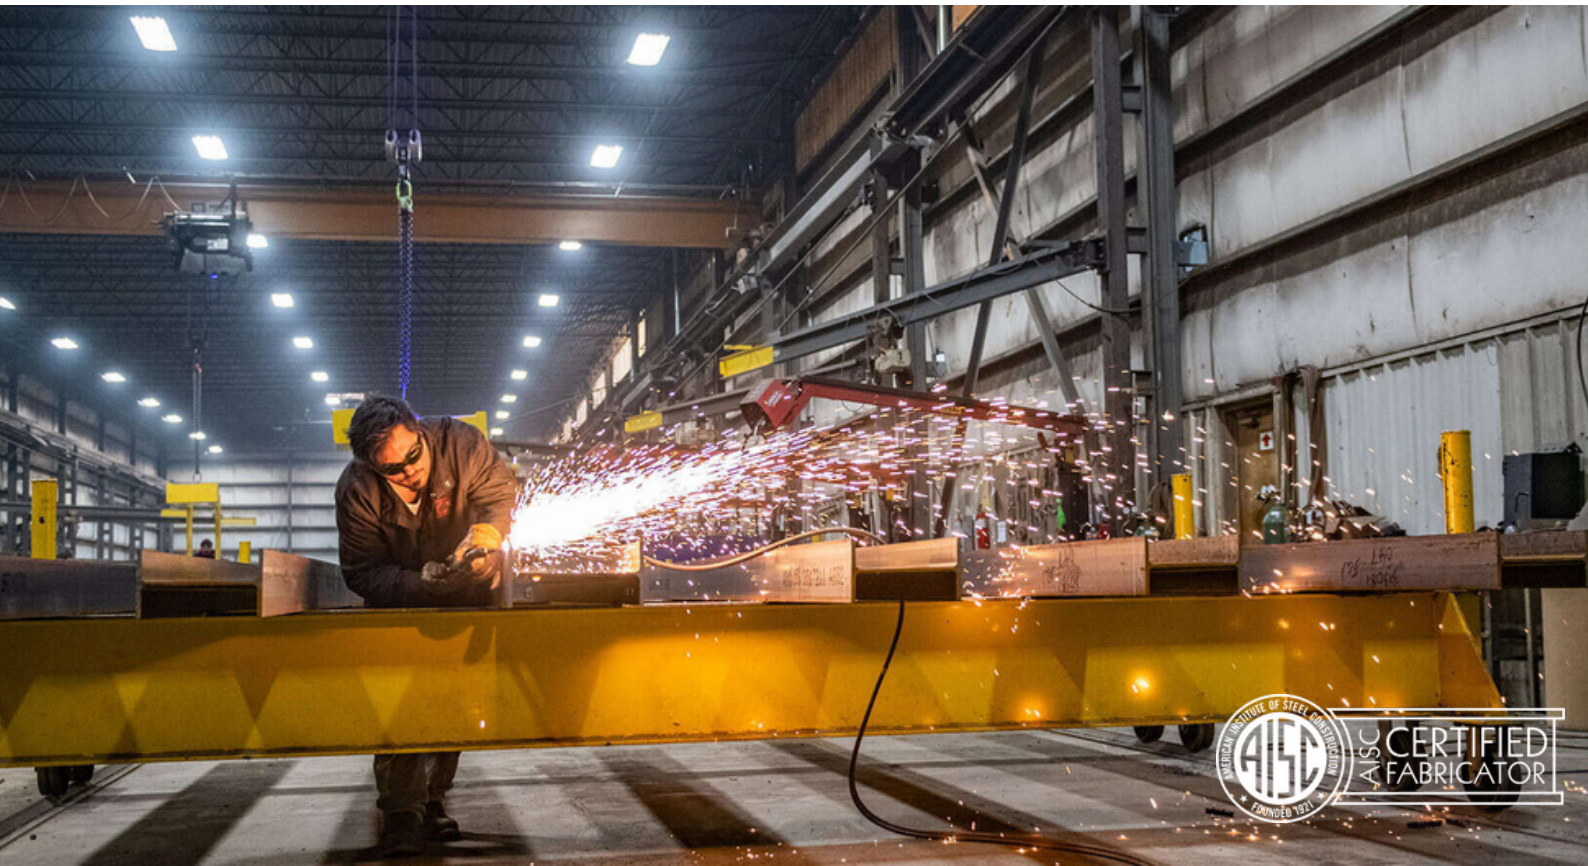

Understanding the possibilities and articulating your own dreams will lead us in creating the best possible solution for you as our client. Whether that's a cabin in the woods or a beachfront oasis - we've got you covered.

# BARNDOMINIUMS

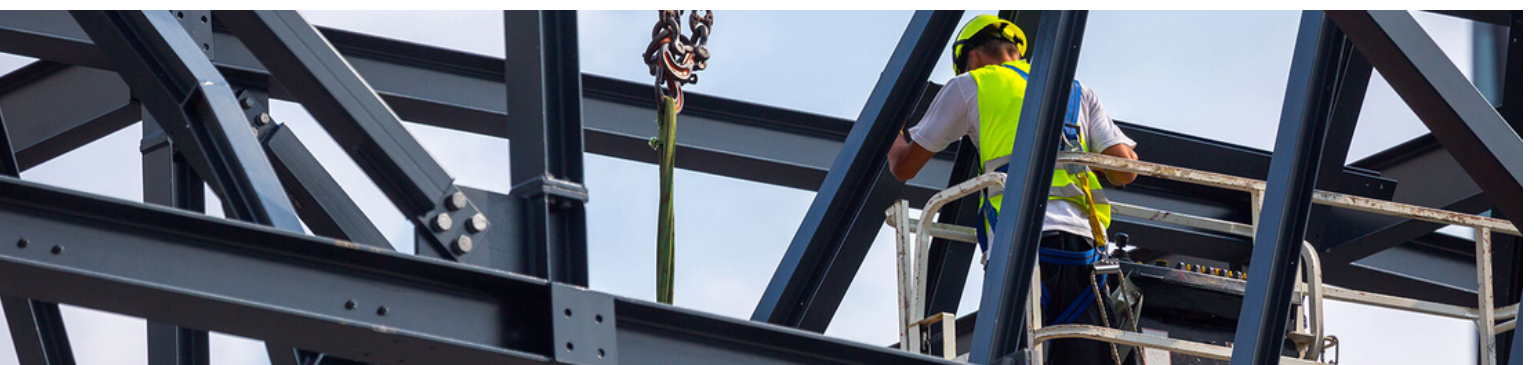

Class and style born from the simple barn. Framed in steel and finished to your liking, barndominiums offer a unique living experience unlike any other. Beautiful in any setting, these structures will stand the test of time.

# ENGINEERED STEEL PRODUCTS

While fabricating structural steel components at Engineered Steel Products, quality control is taken very seriously because they know their customers expect it. A stringent quality assurance program ensures that every product is high quality and meets required specifications by using a multi-phase inspection and documentation process that is consistent with AISC standards. They are an AISC certified operation providing the highest quality of standards in the structural steel fabrication industry. Engineered Steel's reputation has been solidly constructed by delivering excellent quality products for over 30 years.

# SERREVA GLASSHOUSES

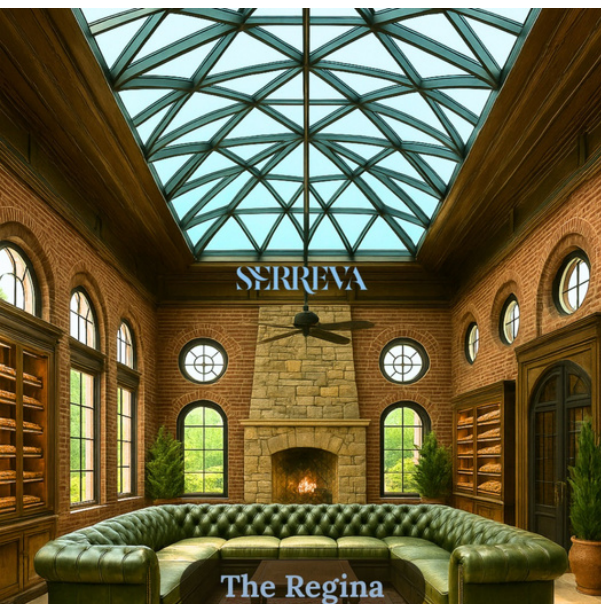

From the Serreva Team:

At Serreva, we specialize in designing and building luxury glasshouse venues for both residential and business clients across the USA. Our portfolio includes a diverse array of styles, from elegant conservatories and stunning wedding venues to personal glass rooms that enhance the beauty and functionality of homes. With a strong emphasis on custom designs, our glasshouses are engineered and built to your exact specifications, ensuring each project is a perfect reflection of our clients' visions.

Whether you're looking to create a serene retreat within your home, a breathtaking venue for special occasions, or a sophisticated addition to your business space, Serreva delivers unparalleled craftsmanship and attention to detail. Each Serreva glasshouse combines elegance and functionality, transforming spaces into stunning, light-filled environments tailored to meet the unique needs and dreams of our clients.

# GLASS ROOFS & CONSERVATORIES

# WOODHOUSE THE TIMBER FRAME CO.

Since 1979, Woodhouse, The Timber Frame Company has designed and built more than 1,000 timber frame homes. Whether custom or pre-designed, Woodhouse timber frame homes are created to be a timeless and enduring legacy for you and your loved ones. At Buffalo Steel Structures, we've partnered with this incredible company to offer both full home builds (only available in certain areas) as well as stunning architectural elements that can be added into your project.

# BUCKLEY FENCE

## EQUESTRIAN LUXURY

# #1 SAFEST HORSE FENCE

**BUCKLEY**  
FENCE

Buckley Fence is made of 100% powder coated steel—the longest lasting, lowest maintenance & most horse-friendly fence on the market. It has the beauty of traditional horse fencing, but with modern-technology, resulting in low-maintenance, strength, and safety.

The lifetime expectancy of Buckley Fence is decades, and the lifetime maintenance costs are virtually zero. The protective powder coating will not chip, peel or crack and has superior long-term resistance to rusting, fading, or chalking—making this the most durable horse fencing on the planet.

# CUMMINS GENERATORS

It's easy to see why we chose Cummins as our preferred provider of power generation equipment. From small portable power sources to whole home generators to fully integrated industrial solutions, Cummins is the leader in reliable, flexible, and sustainable power. Cummins integrated power solutions meet the demands of the toughest mission critical applications, backed by an unmatched global support network.

Around the world, Cummins Power Generation is solving complex critical power needs. Cummins power system solutions integrate all components necessary for reliable power: generator sets, system level controls and switchgear, transfer switches, remote monitoring, and the use of new technologies. No matter your level of need, Cummins' state-of-the-art power systems can provide the ideal solution for you.

# THE POWER YOU WANT AND DEPENDABILITY YOU NEED

## Performance

Lasts up to 30,000 hours of operation

## Warranty and support

5-Year/2,000-hour warranty

## Audio levels

60-70 dB

# USA SHADE & FABRIC STRUCTURES

The preferred shade partner of USA PICKLEBALL, USA SHADE is a full-service design/build fabric shade structure manufacturer located in the U.S. with global shade structure project experience. Since 1991, USA SHADE has been the pioneers, innovators and long-standing leader of the fabric shade structure industry in North America.
