Join Us for Fun and Creative Event will be like a "Wine & Paint Party"  
but with a Unique Twist of Awareness.

For years Rick Vaske has been painting "Words of Intention", selecting a word that he wants to harness into his life, needs better understanding of, needs to redefine in his mind and understanding or needs attention or improvement on in his life.

He will teach you how to sketch it into Chinese calligraphy, and paint the canvas while discussing the "Understanding of defining words", their tone and the impact of recreating a single word through this artist output of the mind through the brush.
