DEFENSIVE FIREARMS TRAINING
CCW | OHIO CHL | FIREARMS SAFETY | ADVANCED CCW

CALL TO REGISTER OR INQUIRE ABOUT UPCOMING CLASSES

Firearms instruction, firearms safety, concealed carry classes, advanced concealed carry classes. Carrying a firearm for personal protection is a serious matter. It is a responsibility that many don't realize when they begin the process to consider carrying a concealed firearm. My concealed carry classes go beyond the "state minimum requirements" for obtaining an Ohio Concealed Handgun License (CHL). Obtaining your Ohio CHL is just the start. Basic concealed carry classes do not teach you how to holster and use your CC firearm in more lifelike stressful situations with competence and proficiency. I offer advanced concealed carry instruction providing more in-depth training, utilizing your chosen CC firearm; loading, re-loading, malfunctions, drawing from a holster, sight alignment and trigger control, to name a few. My firearms classes continually stress safety and how Ohio laws may apply to different situations. Additionally I provide guidance on what to look for in a CC handgun for your particular skill level and need. Think about whether you feel you could effectively handle a situation in which you decide to deploy a concealed carry handgun to protect yourself, your family or someone else? Proper training and continued practice is the only way to ensure a level of competence necessary to defend yourself. Training that continues after you obtain your Ohio CHL.

If you're looking for the quickest class or way to get a certificate to apply for your Ohio CHL, my classes are not for you. If you want to commit the time and dedication necessary in order to learn to carry a concealed carry firearm safely and competently, then I ask you to consider my classes.

Classes offered in both one day and two day settings.

Classes offered:

Concealed Carry, \$100 (required to obtain your Ohio CHL) (One Day Class Limited to 4)
