

2019 Joint Canton-Cleveland Section Technical Meeting

Making Sense of Used Oil Analysis in Today's Heavy Duty Engine Oil Field Trials

SPEAKER: Greg Croce, Technical manager, Chevron Products Company
2018-2019 STLE President

Greg Croce has over 30 years of experience in the lubrication field. Croce joined Chevron in 2000 as a global account manager and OEM service engineer. Prior to joining Chevron, Croce was a process engineer and manager of engineering for Technip USA/KTI. He began his career serving as an analytical chemist for Weck Laboratories.

In 2005, Croce joined the STLE board of directors, and in 2015, he joined the society's executive committee, serving one-year terms as treasurer, secretary and vice president.

Croce earned a B.S. in chemical engineering and an M.B.A. from the California State Polytechnic University, Pomona.

REGISTRATION &

NETWORKING: 5:00 – 6:00 p.m.

DINNER: 6:00 – 6:45 p.m.

PRESENTATION: 6:45 – 8:00 p.m.

LOCATION:

BRAVO Fairlawn Restaurant

3265 West Market Street,
Fairlawn, OH 44333

MEETING FEES:

STLE MEMBERS: \$35.00

NON-STLE MEMBERS: \$45.00

STUDENT MEMBER: \$10.00

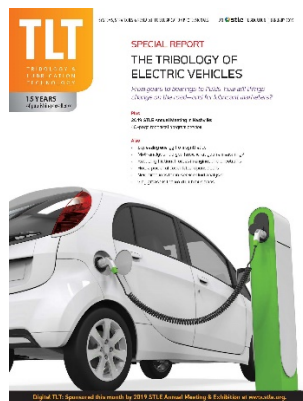

Meeting Fees Payment options: Cash or Check
Or pay online: www.stlecanton.org

ABSTRACT:

Since the introduction of API CJ-4, and now API CK-4 products, we have been developing products with less than 1% sulfated ash. As a result, expect to see a reduction in used oil TBN while the performance of the oil and drain intervals are equal or better than previous products. In this discussion, you will learn why TBN should not be as much a concern in used oil analysis with new generation oils

To confirm your reservations please contact Jill Myers, STLE Canton (jill.myers@timken.com)
or Tyler Kuchta, STLE Cleveland Tyler.Kuchta@Lubrizol.com.

The Reservation Deadline is April 5, 2019 (Fri).
