

Are you an experienced precision machinist that wants to take their career to the next level? Are you ready to put your skills to the test building equipment for ultra-high vacuum? Can you meet quality specs for demanding customers? Then you are ready for Four Nine Design.

Four Nine Design is a dynamic, fast-growing company providing cutting-edge cryogenic products for quantum physics research.

We're located in the beautiful Rocky Mountains in Billings, Montana. Come live in Big Sky country with a driven, groundbreaking, authentic team!

Position: Four Nine Design is looking for a full-time machinist to operate a 3-axis CNC mill and manage the machine shop. This position has tremendous growth opportunity in overseeing the entire in-house manufacturing operation.

Key Responsibilities:

- Can safely operate a CNC Mill performing complex operations in producing prototype parts, production parts, modifications and repairs to existing parts and assemblies.
- Comfortable working with materials: aluminum, copper, stainless steels, brass, and plastics.
- Outstanding team communicator
- Ability to work cross-functionally with the engineering department.
- High level understanding of design for manufacturability.
- Identify opportunities for process improvement and increased efficiency.
- Maintains cleanliness of the work area and ensures proper handling of tools, equipment, and stock to prevent loss. Conforms to departmental safety requirements.

Required Qualifications:

- +3 years full time experience on a CNC mill running CAM operations.
- Comfortable with geometrical dimensioning and tolerancing (GD&T) to measure machined features. Proficient with engineering drawings.
- Strong mathematical, analytical, writing and communication skills.
- Must be able to work independently.
- Strong communication and interpersonal skills.

Preferred Qualifications

- Welding capabilities of aluminum, copper, and steel.
- Knowledge and capability of machining titanium.
- Knowledge of surface prep and finishing

Physical Demands:

- Regularly standing. Occasionally sitting and kneeling.
- Occasionally lifting of 25-75 lbs.

To apply please send your resume and short bio to coral@fournineproducts.com.

Wages/Benefits:

- Wage Range 50,000 to 70,000.
- Retirement Plan
- Paid Vacation and Holidays

To apply please send your resume and short bio to coral@fournineproducts.com.
