

1 CENT DREAM ROADMAP

[HTTPS://FEF.SOLUTIONS/1-CENT-DREAM-CENT](https://fef.solutions/1-cent-dream-cent)

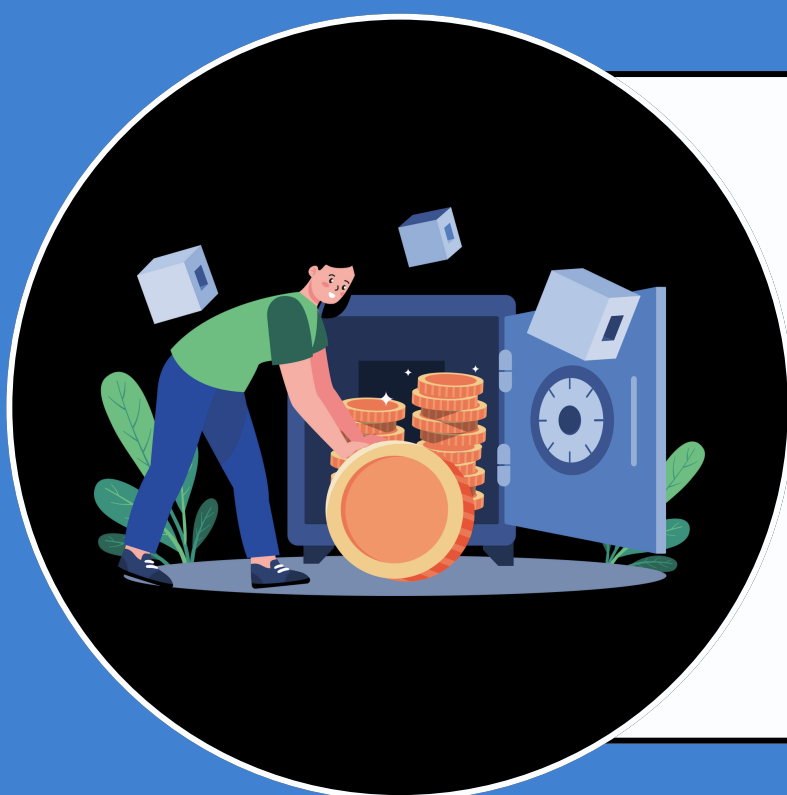

01. TELEGRAM MINI APP

The app is built on the principle of "work for your bags" to boost user interaction within both the \$CENT project and the wider Shibarium ecosystem. It features a reward points system where points can be redeemed for a \$CENT. Initially, wallet compatibility will be limited to tracking user points, ensuring we have a record for distributing \$CENT. **We will also be releasing a really fun game with the TG mini app!!**

02. BURN PORTAL

Our burn portal has zero affiliation to any existing burn portal. Although we are open to any respectful genuine collaboration. First and foremost \$SHIB is \$SHIB, which means this burn portal belongs to SHIBARMY Ryoshi. Some of the specs of the burn portal include a 1,000,000 \$SHIB maximum/minimum total limit contribution per wallet. **The burn portal is being made for passive income opportunities!**

03. STAKING & REWARDS

Two tiers of rewards will be offered. **Maximum reward is for those who are staking \$CENT.** If you are staking \$CENT and send 1,000,000 \$SHIB to our designated address on Shibarium, you will receive maximum rewards. We are making sure \$CENT holders are prioritized for better rewards. All in the name of Shibarium Onboarding and burning Shiba Inu collectively together.

04. RWE (REAL WORLD EVENTS)

\$CENT is out in the real world! **Gifting out free \$BONE and \$CENT for attendees to MacyFest!** Next up, Shibafest! Grabbing a LADS NFT will also be your ticket to ShibaFest. 1 CENT DREAM will provide the same service for ShibaFest that we provided at MacyFest. Will be experienced in this process for a global Web3 conference.
