CENT

Token decimal

18

Next

Bridging to Shibarium

Be sure to have **$SHIB** and **$BONE** on the Ethereum blockchain. You can then bridge it over using Shibarium Bridge

When bridging anything from Etherium to Shibarium be sure to have, at a minimum, $30 of **$ETH** in your wallet for gas fees.

Bridging can take 30 minutes to appear on the Shibarium Network. So if it takes awhile, chat us up in TG ;)

You can also buy $BONE directly on Shibarium at Shib.io
Not available in this US at this time

When clicking "**Continue**" you will be prompted from your wallet to approve the transactions on both networks

Bridging can take 30 minutes to complete

Swap $SHIB for $CENT

Once you have bridged your **$SHIB** and **$BONE** to Shibarium, you can then swap for **$CENT**

Shibarium uses **$BONE** as its gas token. Be sure to have a little for that.

When swapping **$SHIB** for **$CENT**, be sure to use **V1** liquidity pool, set your slippage to **4.9%**, and **disable** multihops

CA: 0x3C9b2b930ed1B6040F8539CCeB35Dd189F4733dD
Use the CA above to swap for $CENT and add to your wallet
