To the People of America's 50 state union,

I officially and in advance declare my preemptive acceptance of any nominations from the floor of the US House of Representatives to the office of Speaker of the House. America deserves a Speaker of the House of Representatives willing to do what is necessary to vote and authorize the demolition of the federal government all the way down to the Department of State. Furthermore, as Speaker of the House; I will investigate election crimes; I will direct COVID inquiries; and I will save the children from human trafficking.

I am prepared to take office before or after my election on November 5th, 2024. I have elected to volunteer myself as a tribute at this time to be Speaker and to serve as the appropriate Libertarian remedy for the wound of division that has gripped our nation for most of the recent decade culminating in the current failure, Speaker McCarthy. Speaker McCarthy has claimed he wants to "get on with governing" and as such perverts his duty to represent and not govern the People of his Congressional District. Representative Matt Gaetz has taken the prudent action of motioning to vacate the Speaker as a measured first step. Matt Gaetz is a man of his word and enforcing the consequences of Speaker McCarthy's failure to uphold his word in their agreement not to allow the passage of a continuing resolution budget.

The Speaker that follows should not be from the current House of (allegedly elected) Representatives. The Speaker that the People require moving forward is one who resolves the present dispute between the two heads of the cartel government as to the more perverse manner of abusing the rights of a subjugated and enslaved American People. This resolution will come from a Speaker prepared to eliminate the central mechanism of despotism, the federal government. I am well qualified and ideally suited to expediently accomplish this task.

In the process of eliminating the federal government, those persons determined to have violated the People's civil and human rights must be investigated and face justice. The first item my my agenda for the house is to investigate state actors involved in our elections such as Dominion Voting Systems, Hart Intercivic, ES&S, Smartmatic, Meta, Twitter, and the allegedly elected or appointed government officials who acted unlawfully and under color of their official authority in election crimes such as Jena Griswold, Brian Kemp, Brad Raffensberger, and thousands of others. Once we know who in the House was legitimately or illegitimately elected we can move on with the second agenda item. Thorough investigations will bring to light the violations of the Geneva Convention's medical protections committed in the development of biological weaponry and non-consensual experimentation on uninformed human subjects around the world by COVID-19 and its genetic derivatives. As a third step to justice conducted concurrently with the former two, my agenda will include the declaration of war against the Sinaloa Cartel and the demand that the Commander in Chief deploy our military in defense of our borders.

Until justice is provided for, we cannot move on and heal from the damage of the crimes of the government. I will serve to provide this justice. I solicit your currency, support, service, nomination, and vote, and I thank you for your consideration.
