Grant Requests

Locust School Grant Request #78

Goals and objectives: The goal of this grant is to provide soccer goals to the back field at locust that can be used during physical education, recess, and after school use. Currently, we have one set of PVC soccer goals, however they are already breaking. Metal goals will be much more durable for outdoor use and a great addition to the program.

Described use of funds: This grant is for 4 metal soccer goals that are 6ft wide by 4 ft high. At recess due to the number of participants, it is necessary that we have two fields (4 goals) for safe participation.

Cost: \$2,077.10

Hemlock Grant Request #81

Goals and objectives: The goal of this grant is to provide the students with a safe and secure basketball hoop that can be used by multiple students at one time. The addition of this permanent basketball hoop will create another station at recess for students to participate. Students that are passionate about basketball will be able to play and improve their skills. The more structured stations available to students, generally, the less behaviors that occur.

Described use of funds: This grant will provide one hoop for the Hemlock school.

Cost: \$2,619.68
