MEET BARBARA ANNE

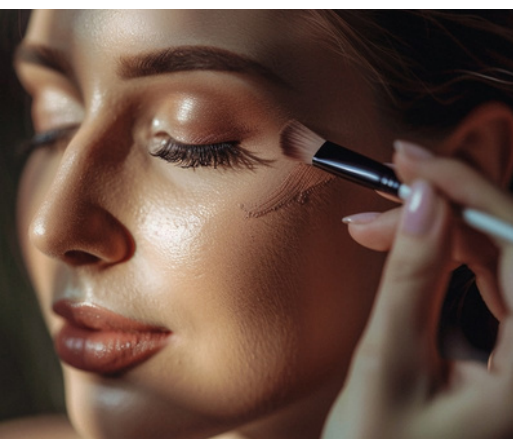

Barbara Anne Photography was born from a simple realization: I wasn't the only person who struggled to see my own worth in a photograph. Today, my passion is helping people see themselves through a different lens, one that reflects their strength, beauty, and the incredible story that has brought them to this moment.

OUR STUDIO

Barbara Anne Photography Is located in the heart of Central Vancouver Island. We are conveniently a few blocks from the highway exit and a block from the beach. Enjoy a coffee, dinner or a drink at one of the restaurants that are walking distance from our studio after your session.

Studio Address:
7221 Lantzville Road
Lantzville, BC V9R 2H00

YOU ARE COMPLETELY, TOTALLY WORTH IT

More Than a Photoshoot

A boudoir experience begins long before you ever step in front of the camera.

From our first conversation, my goal is to create a space where you feel comfortable, supported, and truly seen. Every detail of your experience is designed around you – your personality, your comfort level, your story, and what you hope to feel when you see your portraits.

You do not need to know how to pose, what to do with your hands, or how to look "photogenic." That is my job. Through expert guidance, flattering lighting, and thoughtful posing, I will help you create portraits that celebrate you exactly as you are.

Whether you are celebrating a milestone, marking a new chapter, reconnecting with yourself, or simply giving yourself permission to be seen, this experience is about so much more than beautiful photographs. Time and time again, clients tell me they leave feeling more confident, more empowered, and more connected to themselves than when they arrived.

And while many people choose to create these portraits as a gift for someone they love, the greatest gift is often the one they give themselves – the opportunity to see their own beauty, strength, and worth through a new lens.

Your portraits deserve to be enjoyed for years to come. That's why I offer handcrafted artwork and albums created using the finest archival materials, designed to preserve your images as lasting reminders of this moment in your journey.

LET'S

transform

YOU

into a thing

_____ of _____

PURE

BEAUTY

Let's get this thing STARTED

.. ——— ♡ ——— .. Here's how it works

1

Every portrait experience begins with a personal consultation. This is our chance to get to know one another, explore your vision, and start designing a session that feels authentically you.

We'll talk about what inspired you to book, how you'd like to be photographed, and what you hope to feel when you see your portraits.

Whether you're drawn to something soft and natural, glamorous and elegant, or beautifully intimate, we'll create a plan that reflects your personality and comfort level.

2

We will also discuss wardrobe ideas, styling, colours, florals, preparation tips, and anything else that will help you feel confident and excited about your session. No question is too small.

You can add dream pieces from our studio wardrobe as well!

By the time your photoshoot arrives, you'll know exactly what to expect and can simply relax, trust the process, and enjoy the experience.

3

The day of your session you'll begin by being pampered with professional hair and makeup, giving you time to relax, settle in, and enjoy being taken care of.

You don't need any experience in front of the camera - I will guide you through every pose, expression, and movement from start to finish. My job is to help you feel comfortable and confident while creating flattering, beautiful portraits that celebrate your unique personality and body.

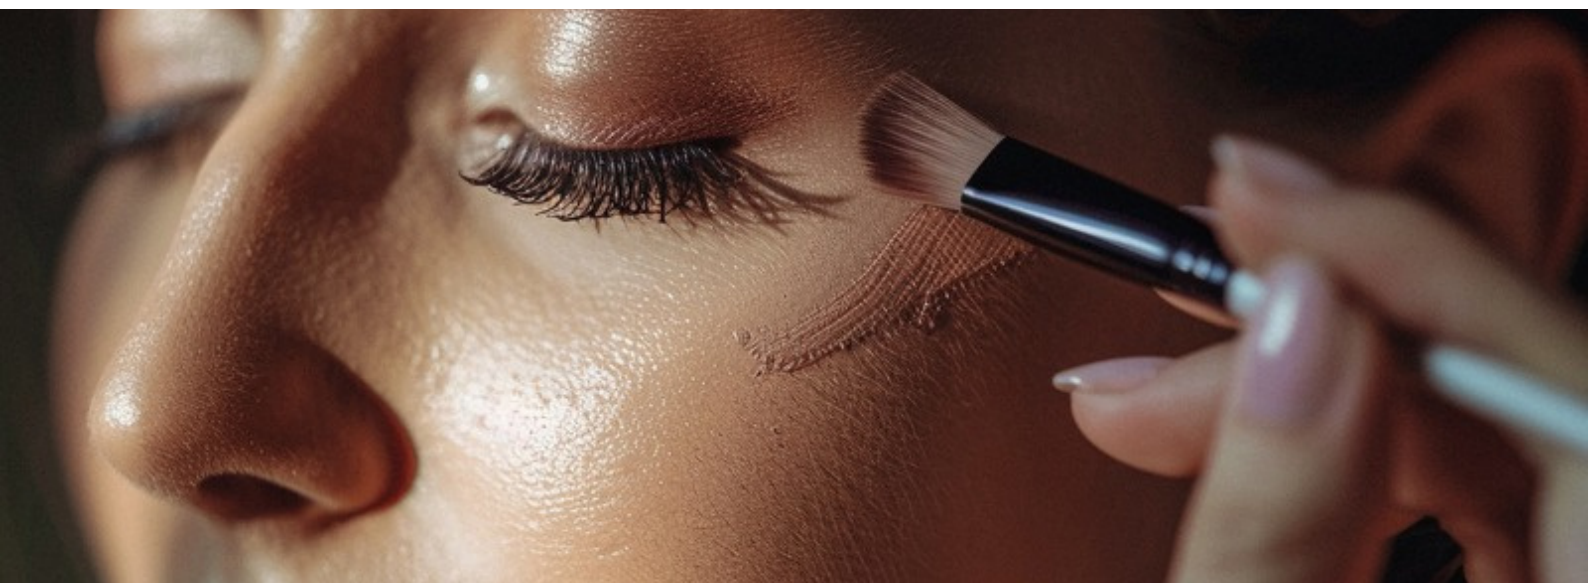

Together, we'll create images that are authentic, empowering, and uniquely yours.

4

After your photoshoot, we'll review your portraits and select the images that speak to you most.

Once you've chosen your favourite portraits, I'll help you transform them into beautiful pieces of artwork designed to be enjoyed for years to come. Whether you fall in love with a handcrafted album, a collection of matted portraits, a keepsake portrait box, or statement wall art, we'll create something meaningful that reflects your story and style.

Every image you select receives my signature professional retouching, carefully crafted to enhance your portraits while preserving the authenticity of who you are.

Get Ready

Preparing for a boudoir session is an exciting opportunity to celebrate your beauty and confidence and embrace your sensual side. To ensure a seamless and enjoyable experience, being well-prepared is important. Here's a guide on how to prepare for your upcoming boudoir session.

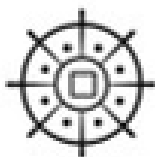

Wardrobe

When it comes to wardrobe, we recommend bringing a variety of outfits that make you feel confident and beautiful. Consider a mix of lingerie sets, bodysuits, corsets, and other garments that highlight your favorite features. Choose pieces that flatter your body type and reflect your personal style. Don't forget to pack accessories like jewelry, heels, or any sentimental items you'd like to incorporate into the photos.

Pamper

Before the session, ensure you take care of your grooming routine. This includes waxing, shaving, or any other hair removal method you prefer (if that's your thing). Ensure your nails are well-manicured, as they often appear in boudoir photos. A fresh cut and hair color is always a good choice before your session.

OH, what should I WEAR?

One of our most frequently asked questions and our favorite to answer! What to wear depends entirely on you - what kind of look you envision for yourself, what genre or era you're trying to evoke, and most importantly, what makes you feel most comfortable!

Some clients prefer to bare it all, while others prefer to remain more conservatively covered. Any way you like it, we'll work with you to create the photographs of your dreams. Here are a few pointers we've gathered from our years of experience: for the final outcome of your session.

Lingerie with interest.

Fishnet stockings, extra-lacey negligees, colorful corsets, ruffles, a men's shirt or suit jacket looks amazing on camera. We love photographing you in anything - but unique, interesting lingerie pieces are a great way to make your photos really incredible.

Ruffles, tulle, and lace catch the light beautifully!

Shoes, shoes, shoes!

Oh, and did we say more SHOES? Shoes are truly an integral part of your images; they set a mood, express your personality, and can add touches of sexiness, classiness, or cuteness! Boots, heels, and stilettos - we love them all. We recommend bringing multiple pairs of shoes (heels and stilettos are always favorites) to experiment with what works best with your outfits.

GET INSPIRED

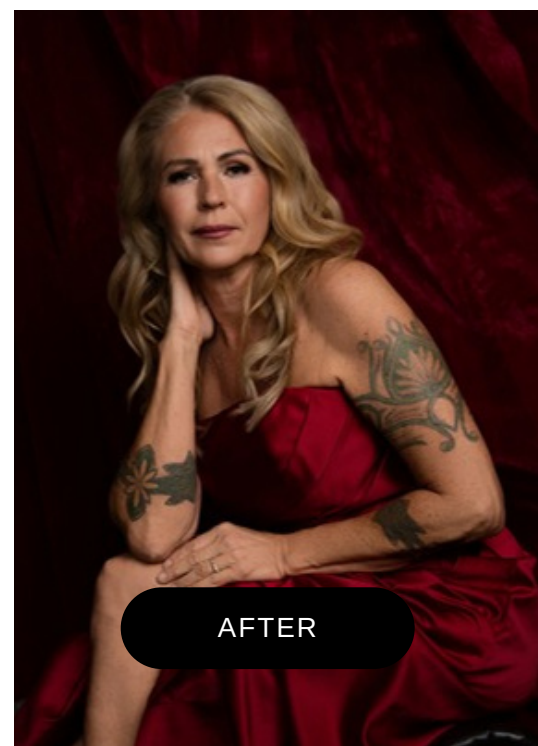

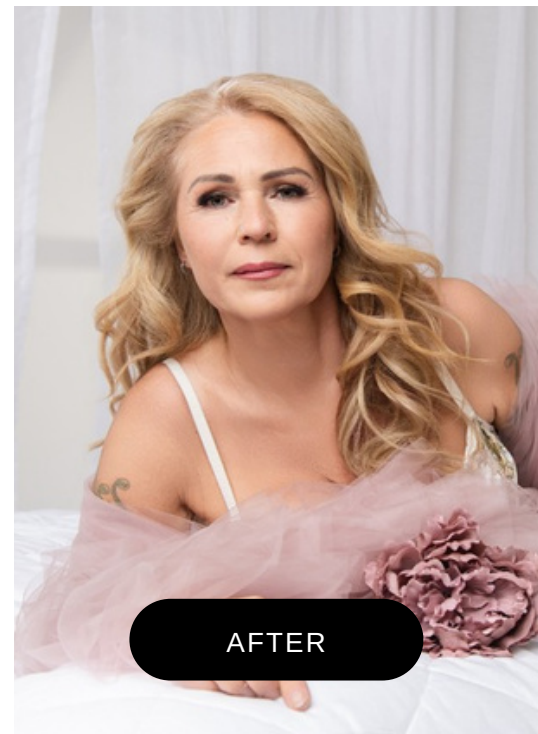

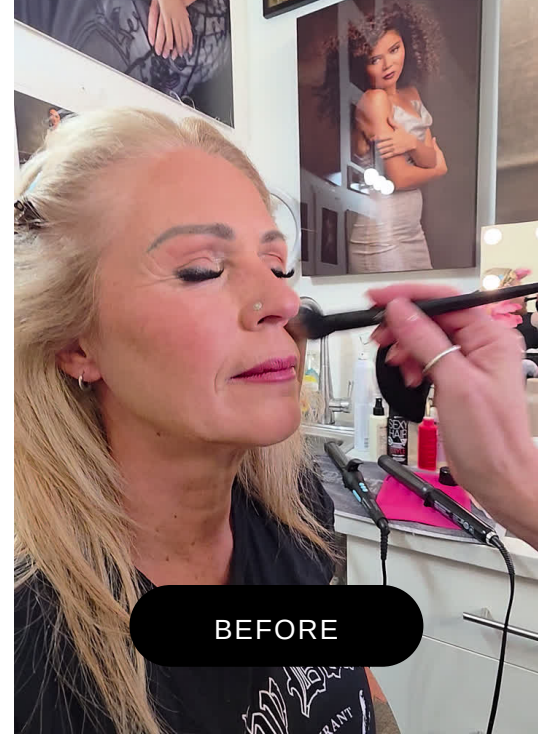

PINTEREST IS YOUR BEST FRIEND

At our photography studio, we believe in going the extra mile to ensure our clients have a truly memorable and personalized photoshoot experience. That's why we highly encourage all our clients to explore the wonderful world of Pinterest as they prepare for their upcoming session. Pinterest is a treasure trove of inspiration, filled with countless ideas, themes, and styles to help you bring your vision to life.

Whether you're seeking creative poses, stunning locations, or unique props, Pinterest has it all. By creating boards and collecting images that resonate with you, you'll have a visual reference that we can use to tailor the photoshoot to your preferences.

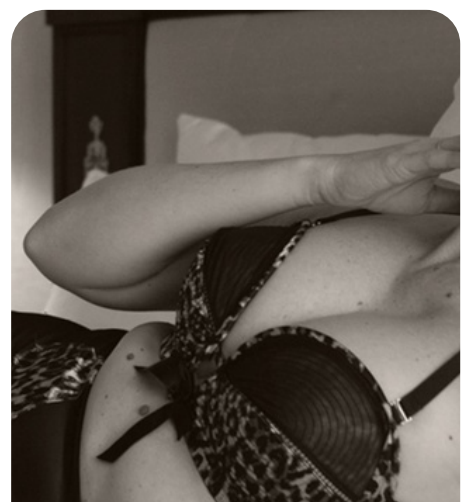

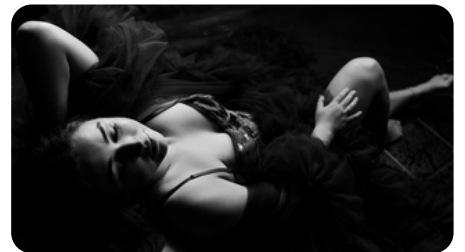

Our team will collaborate with you, using your Pinterest boards as a starting point, to curate a custom photoshoot that perfectly captures your personality, style, and aspirations.
