

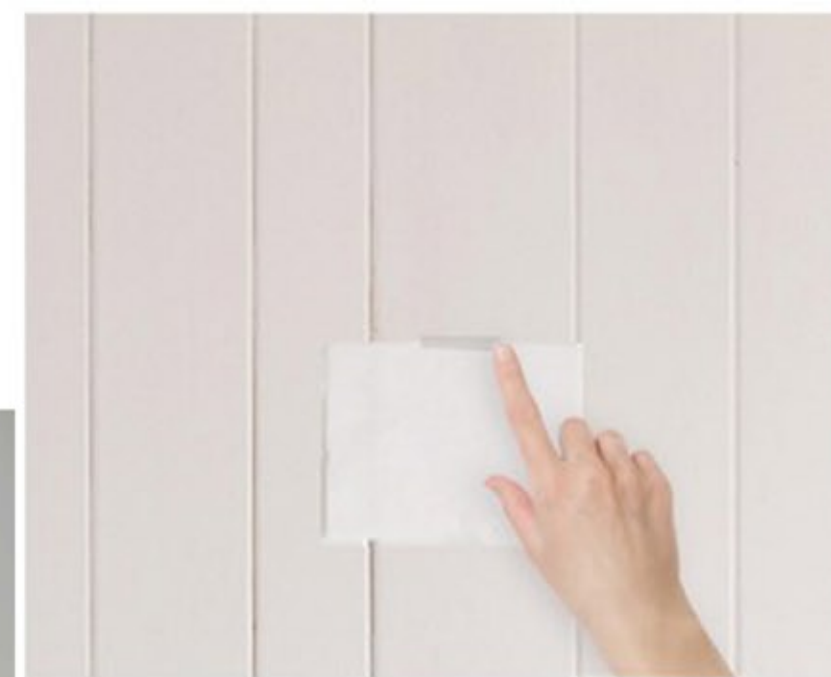

PHOTOGRAPHING WALLS FOR WALL ART

You may find yourself so overwhelmed by the number of images that you love from your session that it seems impossible to choose what to hang on your walls, and in what size and format. Not to worry! We will assist you in narrowing down your favourite and show you products that would compliment your home and your style.

We include a wall art design consultation as part of your ordering session.

It's easy, just follow these simple steps!

1 MEASUREMENT

Tape a standard 8.5x11 inch sheet of paper to the wall. If you can't find a standard sheet, use something measurable and send us the dimensions of what you used.

2 BACK UP

Back up far enough to include furniture and other room elements that will give a sense of scale to the final image and allow you to see how it blends with your decor.

3 STRAIGHT ON

Take the image straight on to the wall and not at an angle. This provides the most accurate visualization in our process.

4 SEND IT

Repeat until you have photographed all possible walls for your wall art design.
