SUMMARY OVERVIEW OF YOUR  
PRECISION PILOT PROGRAM  
BENEFITING YOU & YOUR PATIENTS

Nice to meet you! I have attached your CMS Report Card showing you are missing \$333,901 in medically necessary services you were unaware that you were sure that you were doing. NOW, we will go get it for you for no upfront or out-of-pocket costs, no new technology to learn and zero operational changes. We get paid if and only when you get paid and we even do the billing for our services for you. By extrapolating these metrics across your entire patient population, it adds another \$212,424. That is 100% yours as we are paid via separate codes for AI triage, care coordination and navigation.

#### PENALIZED?

Yes, on one sample code, a compliant provider is getting \$352, and a noncompliant provider is getting \$179, or 42 payment levels between those two and you never even see it. Very simply you succeed or fail to connect to new medical necessities found within the results of your last encounter. Only Precision has those metrics because we helped to architect and build these grading systems.

### DR. ZHIVAGO

LOCATION	SPECIALTY	ENTITY TYPE	NPI NUMBER
3901 Nostrand Ave Suite L11, Brooklyn, NY, 11235	Internal Medicine	Individual	1124198304

Calculate Precision Opportunity

Description	Value
Expected Patient Contact Pool	2505
<b>Total Expected revenue per year for the Practice Group</b>	<b>\$192,384</b>
Cost for Number of Patient Responding to Engagement	\$80,160
<b>Expected Gross Revenue for Practice Group</b>	<b>\$112,224</b>
Additional Visits Generated from Patient Engagement	200
Additional Revenue from Additional Visits	\$100,200
<b>Total expected Revenue to the Practice Group with Patient Engagement and Care Coordination</b>	<b>\$212,424</b>

Now let's help you to help your staff and patients! To begin the program, we do an electronic billable encounter or the entire patient population. The link to our AI Embedded Health Risk Assessment is required to give you insights into current medical necessities and to give control of their own health records to consumers and patients.

By simply sharing our 501(3)(c) Nonprofit's Public Service Announcement regarding patients' rights to control health records, you qualify to be paid \$1 per subscriber per month. Our Precision Health Records app download and records storage is always free, OR they can subscribe to real-time updates through our relationship with Milliman."

*"The best life, health, and travel assurance for you and your family is to have your health records in one place on your device instead of spread across many password protected portals.*

*The Precision Health Access phone app download and personal records storage is and will always be free, OR for less than the cost of TV streaming services you can have real time updates. If you had 10 services in 10 states it would update your records automatically."*

[Provider Program Options are here](#), and [their Simple Agreement link is here](#). Yes, it's that easy!
