

BENEFITS TO SHARED RISK PARTNERS

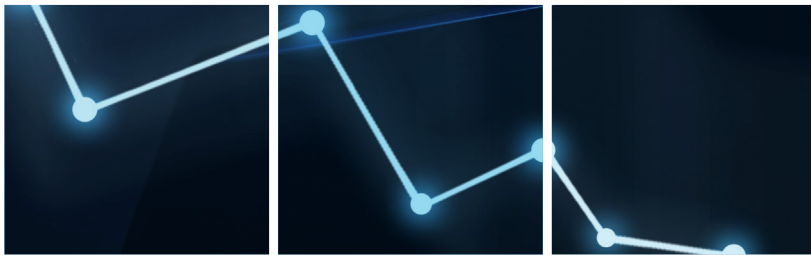

Free Technology & Revenue Share on Fee for Service Side
(90 Second Read)

Below is a short summary of what we do. As remarkable as our technology and system are, under special circumstances, like yours, we offer access and support of our transformative technology entirely to you for FREE. Includes access to RAF and compliance rating data for 1,040,000 providers. What's the catch?

In addition to providing our technology and support services at no cost in the shared risk sector, we deepen your relationships with your clients by maximizing their revenue in the fee for service sector, and then we share that revenue with you and/or your organization. This larger sector has never produced revenue.

As we know, even though the shared risk sector is a considerable minority of the practice's total patients, many providers and organizations manage their fee for service populations with the same cost restraint assumptions that your programs require. Not only does the provider miss out on this revenue, but in many cases, they are being penalized for not taking it. We can change this together today while raising all ships! Our program can launch in 72 hours.

- 
- Free access for shared risk programs to Precision Healthcare Technology's state of the art AI driven platform, directly tied to the CMS Standard of Care.
 - This provides the ability to reduce, streamline or reassign staff for better cost and efficiency.
 - Produces new revenue to the shared risk organization and partners from the fee for service side.
 - Creates a marketplace differentiator, strengthens, and extends current relationships while making your program more attractive to new prospective clients.

Please review the short introductory message below for a better understanding.

This is a sample template of how we introduce our program to your providers. Of course, we will tailor this message to your preferences. Thanks again and we sincerely look forward to working with you!

For more information there are four critical short downloads for your review at our [Precision Healthcare Technology website](#). Those are;

- **Precision Healthcare Technology Introduction** – Combines Fee for Service & Shared Risk Benefits
- **Precision Term Sheet** – What we do on behalf of the provider.
- **Maximizing Patient Engagement** – You must engage the patient/consumer monthly for success and sustainability.
- **Actual Bill Run/Reimbursement Summary & Detail for the first 100 of a 606-claim run** – For our fee of \$2,000 this provider received \$18,180 in benefits from Fee for Service alone.
