

Yuma County Public Works has announced that Adair Park Road will be CLOSED from Nov. 30 through Dec. 11, 2026 to install a drainage pipe to alleviate flooding at the dip in the road. Access to the range(s) can only be accomplished by taking Hwy 95 to Ave 7E (Laguna Dam Road); continue to E County 6th St., turn right (toward Yuma Lakes RV Park). Continue on E County 6th St. until you see the Gila Monster Farms operations center on the right, at which point your will bear left up to the Canal Road (we will have signs at that point). Continue on the Canal Road until it merges with Adair Park Road - You will bear left at the intersections (we will have a sign there too). Continue on the dirt portion of Adair Park Road until it becomes paved. The range will be on the left, about 1/4 mile past where the pavement begins.
