

## Thunder / Lightning Procedure

The procedure that we follow is that the players come out to practice then the Coaches and Trainers do a PSA (Practice Safety Analyses) if it is deemed that it is too dangerous due to Thunder/Lightning (Stormy) we will have the players wait 30 minutes in a Guardians Vehicles to see if the Storm passes. If the Storm does not pass the Coaches and Trainers from all 3 levels will cancel that Practice.

On Stormy Days if you notice the weather getting worse it would be appreciated if 1 Guardian with a Vehicle would stay at the practice just in case we have to MUSTER the players out of the bad weather and into Vehicles.

There are a lot of times where the storm will not pass and the Coaches will usually take practice inside the club house for film and White Board work. So there is always something that Coaches can do with the players so that practice isn't wasted.
