

4 LEARNING STYLES

THESE ARE THE MOST COMMON
TYPES OF LEARNERS

VISUAL LEARNERS

Someone with a preference for visual learning is partial to seeing and observing things, including pictures, diagrams, written directions and more. This is also referred to as the "spatial" learning style.

AUDITORY LEARNERS

Auditory learners tend to learn better when the subject matter is reinforced by sound. These students would much rather listen to a lecture than read written notes, and they often use their own voices to reinforce new concepts and ideas.

KINESTHETIC LEARNERS

Kinesthetic learners, sometimes called tactile learners, learn through experiencing or doing things. They like to get involved by acting out events or using their hands to touch and handle in order to understand concepts.

READING/WRITING LEARNERS

These types of learners are drawn to expression through writing, reading articles or books, writing in diaries, looking up words in the dictionary and searching the internet for just about everything.
