This year we added a 6-month course that includes one month of Hot Shoeing.

The month of hot shoeing will cover making all types of shoes from bar stock, nailing each type of shoe on, and burning each type on. The types of shoes include:

- Bar Stock Shoes
- Rocker Toe Shoes for breakover
- Egg Bar Shoes
- Clips Shoes

This course covering corrective shoes, shoe application, proper guidance, and a little more knowledge will erase the intimidation of hot shoeing.

This course will make you a top-notch Hot Shoer.
